PROGRAM

15:00 Greetings from WeGO Secretary General

15:05 Introduction of WeGO and NEASCN

15:10 **SESSION I. Smart Cities Network Partners in Northeast Asia**

Nobutsugu Miyama, *Program Officer, Trilateral Cooperation Secretariat (TCS)*

Alexander Prilepin, *Office Head, Union of Russian Cities (URC)*

Tserendulam SH, *Director, Healthy Cities Network of Mongolia (HCNM)*

Shinjoon Park, *Manager, Korea Land and Housing Corporation (LH)*

Teng Leng Lim, *Deputy Director, Centre for Liveable Cities (CLC)*

Q&A

15:40 **SESSION II. Smart Projects in Northeast Asia and Project Financing**

Part I. Presentations by Cities & Partners

Dajun Wang, *Deputy Director, Shanghai Municipality*

Shu Zhu, *Regional Director, ICLEI East Asia Secretariat*

Daesik Lee, *Director, Yeosijae (Future Consensus Institute)*

Sungchan Cho, *General Director, Hananuri Academy of Northeast Asian Studies*

Calvin Chua, *Associate Head of Programs, Choson Exchange*

Part II. Discussion with Financing Experts

Sungsoo Jung, *Director, Economic Development Cooperation Fund (EDCF)*

Seok Yong Yoon, *Principal Specialist, Asian Development Bank (ADB)*

Q&A

16:40 Introduction of NEASCN Task Force

16:45 Takeaways and To-Do List for Inaugural Meeting of NEASCN

Opening Remarks

Kyong-yul LEE

Secretary General

World Smart Sustainable Cities Organization (WeGO)

Introduction of WeGO & NEASCN

Eunbyul (Elena) CHO

Program Manager

World Smart Sustainable Cities Organization (WeGO)

Introducing WeGO

“Smart Sustainable Cities for All”

December 9, 2020

Eunbyul (Elena) CHO | Program Manager

VISION

Smart Sustainable Cities for All

MISSION

- ❑ To promote and facilitate the **transformation of cities** to smart sustainable cities worldwide
- ❑ To be a **global platform** for cities to transform into smart sustainable cities
- ❑ To foster **international exchange, cooperation, and networking** among members

What We Do

Training Programs & Workshops

Feasibility Studies & Pilot Projects

WeGO Feasibility Study Program 2018

Data Analytics Platform for Smart Traffic in Da Nang

NEED ASSISTANCE?

This page lists down companies in Korea that manufacture medical supplies related to addressing COVID-19. If your city needs assistance in getting medical equipment and have any other COVID-19-related request, please contact Chris Jo at chrisjo@we-go.org.

No.	Item	Manufacturer	Product Name
1	Specimen Collection Kit	Noble Biosciences Inc.	UTNFS-3B-1, UTNFS-3B-2, UTNFS-15C, UTNFS-16C
2	Specimen Collection Kit	ASAN Pharm. Co., Ltd.	UTM(T), UTM(AM608-TS), UTM(TS)II
3	Specimen Collection Kit	AccuGene	AccuViral Collection Kit (ACN M6101)
4	Nucleic acid Extractor	Boditech Med Inc.	NuActor
	Diagnostic Reagents		AFIAS COVID-19 Ab
5	Nucleic acid extractor	Bioneer Corporation	ExiPrep16 Dx, ExiPrep48 Dx, ExiPrep96 Lite
	Nucleic Acid Extraction Kit		Exiprep® 16 DX viral DNA/RNA Extraction Kit, Exiprep® 48 DX viral DNA/RNA Extraction Kit, Exiprep® 96 DX viral DNA/RNA Extraction Kit
	Diagnostic Reagents		AccuPower® COVID-19 Real-Time RT-PCR Kit, AccuPower® SARS-CoV-2 Real-Time RT-PCR Kit
	PCR Machine		ExiCyclerTM96
6	Nucleic acid Extractor	Ahram Biosystems, Inc.	PalmTron™ E1 Portable Nucleic Extractor
	Nucleic Acid Extraction Kit		Palm PCR Viral RNA Direct Extraction Kit
7	Nucleic acid Extractor	Apintech Inc.	MX-16, MX-32, MX-8L
8	Nucleic acid Extractor	Osang Healthcare Co., Ltd.	GeneFinder EX-MATE 32
	Diagnostic Reagents		GeneFinder COVID-19 Plus RealAmp Kit
9	Nucleic acid Extractor	INRON Biotechnology, Inc.	Miracle-AutoXT Automated Nucleic Acid Extraction System
	Nucleic Acid Extraction Kit		AutoXT PGS Extraction Kit
	Diagnostic Reagents		Lilif™ COVID-19 Real-time RT-PCR Kit
10	Nucleic acid Extractor	Genolution Inc.	Nextractor® NX-48S

Smart City Driver

WeGO SMART CITY DRIVER

WeGO's new overarching framework for cities
to **help, plan, finance and deploy their smart city projects**
through a range of customized solution packages
and matchmaking with strategic partners that can assist in citywide implementation.

WeGO Activator

An **innovative and collaborative online platform** that helps WeGO members plan, deploy, and finance smart city projects and exchange knowledge with each other. Serving as the main enabler of the WeGO Smart City Driver, the Activator is used to streamline the application process for the Solution Finder and the Project Implementer.

WeGO Solution Finder

A newly launched **systematic, comprehensive survey** that extracts key data on ongoing or prospective smart city projects by local governments – at any stage of their lifecycle—which is then used to **pinpoint and propose “packages” of solutions** that can contribute to and strengthen the resources necessary for successful, citywide implementation.

WeGO Project Implementer

WeGO flagship program to help cities assess their current smart city development status, draw practical strategies and implement projects that align with the local and/or national development goals and plans, **in cooperation with the selected consultants.**

- ▶ **A Platform** Global Network of Partners for the Improvement of Cities Around the Globe
- ▶ **A Service** Access to Exclusive Events, Business Opportunities
- ▶ **A Solution** Joint Initiatives in R&D, Financial Support for Cities

Introducing

NEASCN

**Northeast Asia Smart Cities
Network**

Northeast Asia

Home to **one fifth of the world's population and gross domestic product.**

Suffered from Asian Financial Crisis 20 years ago, quickly rebounded and regained status as the **world's fastest-growing region.**

By 2030, it is estimated that Asia will see a total economic growth of \$15 trillion and a consumption increase of \$21 trillion. Northeast Asia is located just at the meeting point of **"the Silk Road Economic Belt"** and **"the 21st Century Maritime Silk Road."**

Northeast Asia Smart Cities Network

PURPOSE

An open-ended regional network of city and other local governments across the region to spearhead smart city development and manage interregional relations in the context of NEASCN.

Northeast Asia Smart Cities Network

GOALS

One. Knowledge exchange and cooperation on smart city development

Two. Partnerships for consultation and funding toward feasibility studies and pilot projects

Three. Bankable projects with the private sector

Northeast Asia Smart Cities Network

Way Forward: CJK Cooperation on Smart City

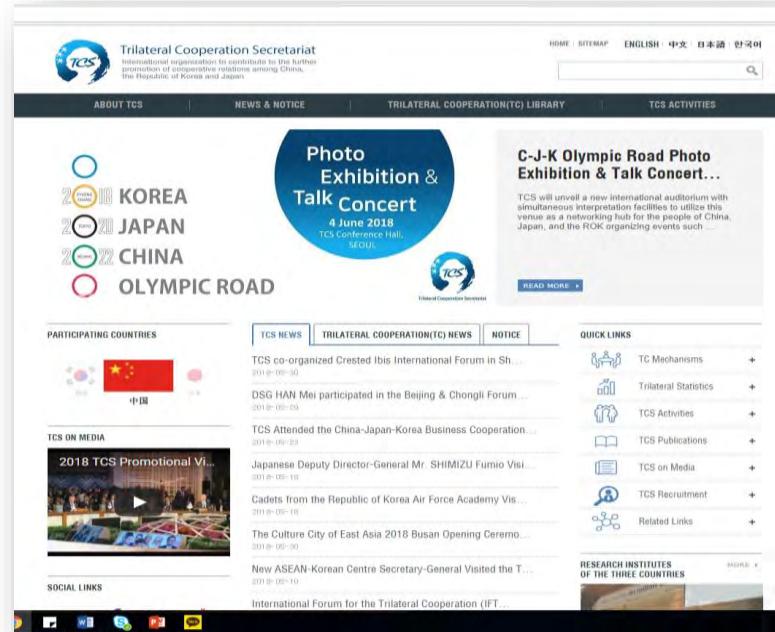

- Further support for enhancing trilateral cooperation on smart cities
- TCS wishes to facilitate establishment of CJK Smart City Conference/ Platform
- The year 2021 marks TCS' 10th Anniversary – series of events
TCS will organize events/conference related to CJK Smart City

Possible TCS Collaboration with NEASCN

- Co-organizes conferences
- Co-facilitate platform
- Trilateral + X

for Northeast Asia Smart Cities Network (NEASCN)

Online Pre-Workshop

December 9, 2020

Speaker
Alexander PRILEPIN
HEAD PROJECT OFFICE
Union of Russian Cities

30 years of active work for Russian cities' development

UNION OF RUSSIAN CITIES INCLUDES **91 MUNICIPALITIES** with 47ml ppl

1991

date of its
foundation

Powerful
Resource
Center

Close cooperation
with government
bodies of all levels

Experience
exchange

2021

30th anniversary

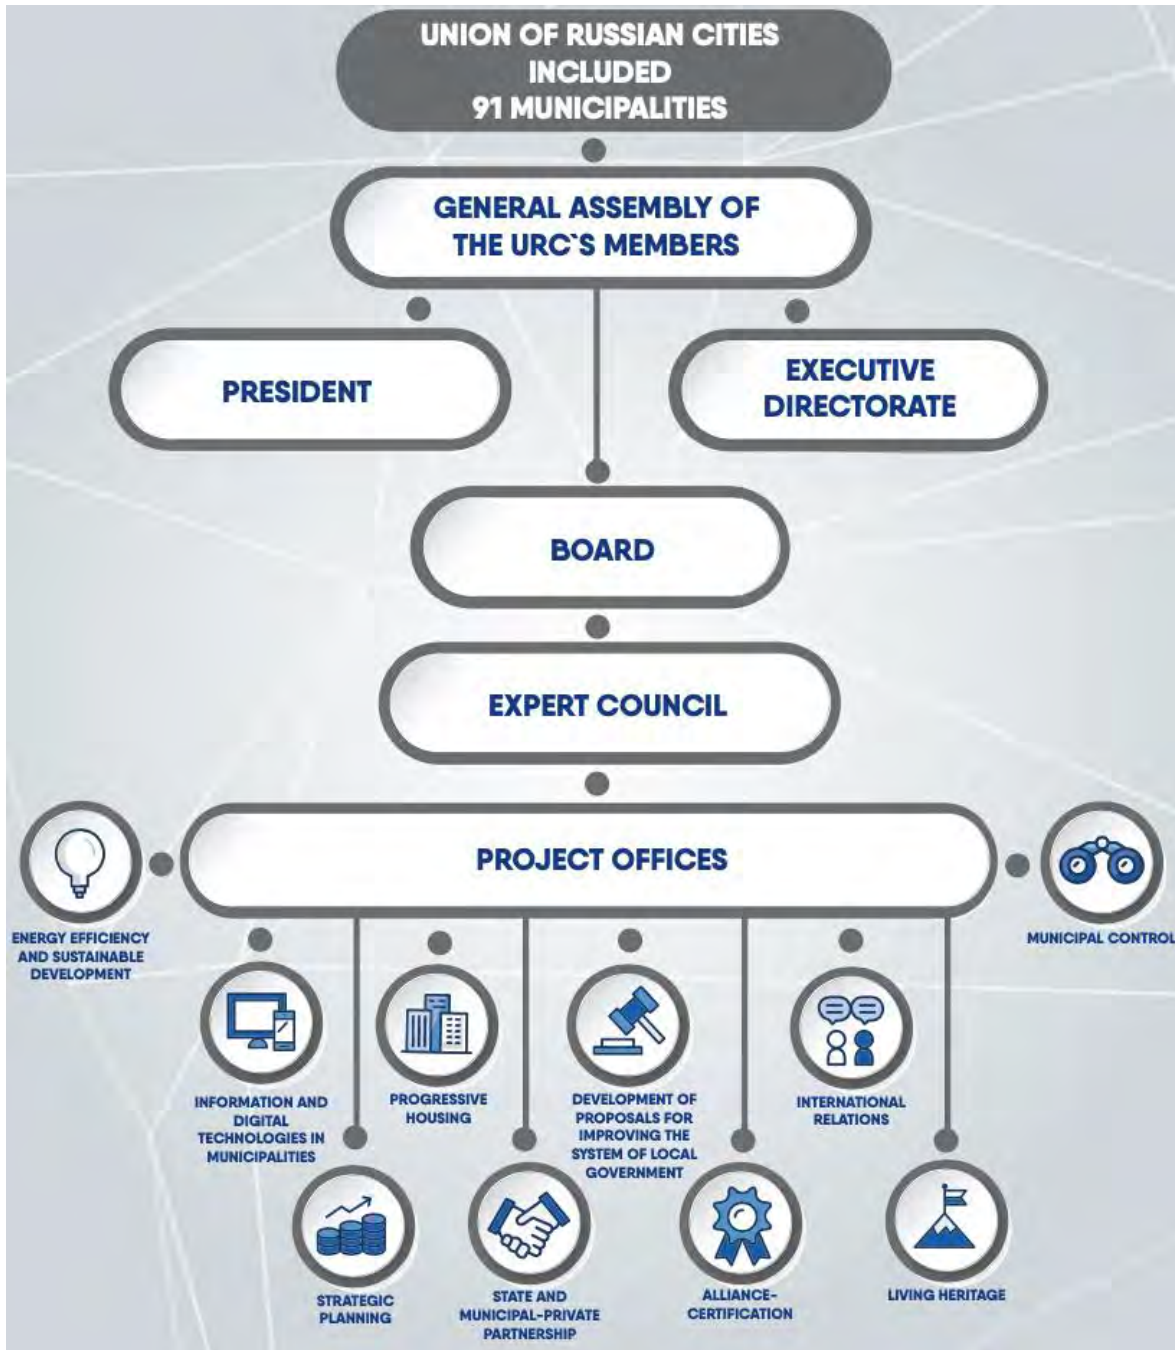

Sustainable
development
of cities

«We, the heads of municipalities, have created a special communication platform, the Union of Russian Cities»

«We unite our human and other available resources to develop a common approaches to different challenges our municipalities are facing»

«We are always open for members of our organization, our colleagues from other associations to discuss together all the issues of our concern, find solutions, protect common interests»

Multilateral Cooperation: URC's experience and perspectives

- Expert Council – the best Russian experts on specific issues
- 10 Project Offices
- Over 20 of the 91 cities are located in Asian part of Russia
- Expanded experience in multilateral cooperation
 - 13 cooperation agreements with foreign municipal associations, including China, Japan, the Republic of Korea and international associations of cities and regional authorities
 - 2020 – 12 video conferences were organized (Kazakhstan, Turkey, China, USA, Spain Kyrgyzstan, Finland, Moldova, Belorussia...)
 - Long-standing cooperation with International Association of Twinning Cities
 - 2017 – URC was empowered by Russian Foreign Ministry to coordinate activities within the Russia-Germany Year of Regional and Municipal Partnership
 - 2017 – the Protocol on Cooperation was signed between URC and Union 3a Municipalities of the Turk World
 - Cooperation Agreement with International Association of Messenger Cities for Peace
 - 2016 – Agreement with National Association of Mayors of the Republic of Korea

Ongoing initiatives and expected achievements

National legislation development / initiatives

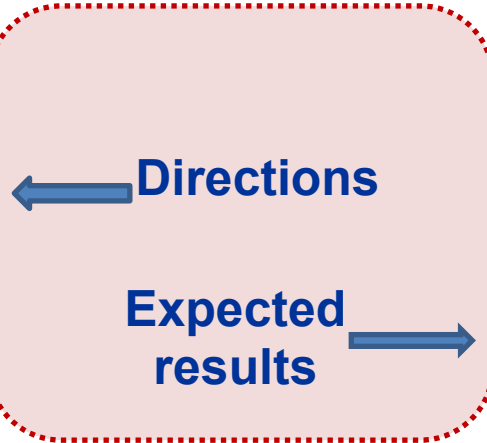

Strengthening of innovation component of cities' economies /digitalisation

People's diplomacy development (Smart Cities for Peace and Sustainable development)

Promotion of best municipal practices (e.g. currently - transformation to hydrogen economy in cities)

New laws to support the municipal activities and cooperation (city agglomerations, smart cities, etc)

SmartCity Platform for URC integrated with NEA-countries, MDBs, aid agencies, etc (July 2021)

Summit of Mayors of Russian and Foreign Cities May 2021

Forum on Best Municipal Practices: "Innovative projects to ensure the life of cities"

Cooperation with NEASCN and its partners

SmartCity Platform for
URC integrated
w/NEASCN

Policy Guidelines
development for
transformation into smart
sustainable cities

Partnership for
consultation and funding

Support in development of joint
projects to improve the life of
citizens on the bases of new
technologies

Support to URC
Hydrogen Project

City management
system

Cooperation perspectives for NEASCN

- Transfer to smart cities ("smartcitisation"). Exchange with strategies, approaches, best practices, new ideas. Twinning of smart-cities.
- Creation of special digital communication platform(s)
- Developing and supporting new working conditions and educational models (e.g. distance learning, development of new educational technologies);
- Promoting the development of cultural production and consumption (e.g., online consumption of culture and entertainment);
- Joint projects aimed at increasing citizen participation in the development of their cities as smart ones;
- Setting up the multinational teams to tackle complex challenges in the post-covid era

City of Penza: URC Forum on the Best Municipal Practices

City of Grozny (Chechen Republic)
– Forum on the Best Municipal Practices

How the Union of Russian Cities can be useful

- Joint project activities (initiation, assistance in implementation)
- Partnership for consultation and funding
- Support and development of "smart" cities – policy guidelines, communication platforms, etc.
- Knowledge exchange and cooperation on smart city development
- Exchange of best municipal practices – sharing and provision of integrated solutions to local governments
- Networking with many Russian internal and international networks
- True data on the situation in cities and needs (monitoring by our experts)
- Information and analytical support of cities
- Analysis of trends and adapted solutions
- Attracting international experience, development resources, public/people diplomacy promotion

Director of Healthy City Network of Mongolia

Urbanization– in Mongolia

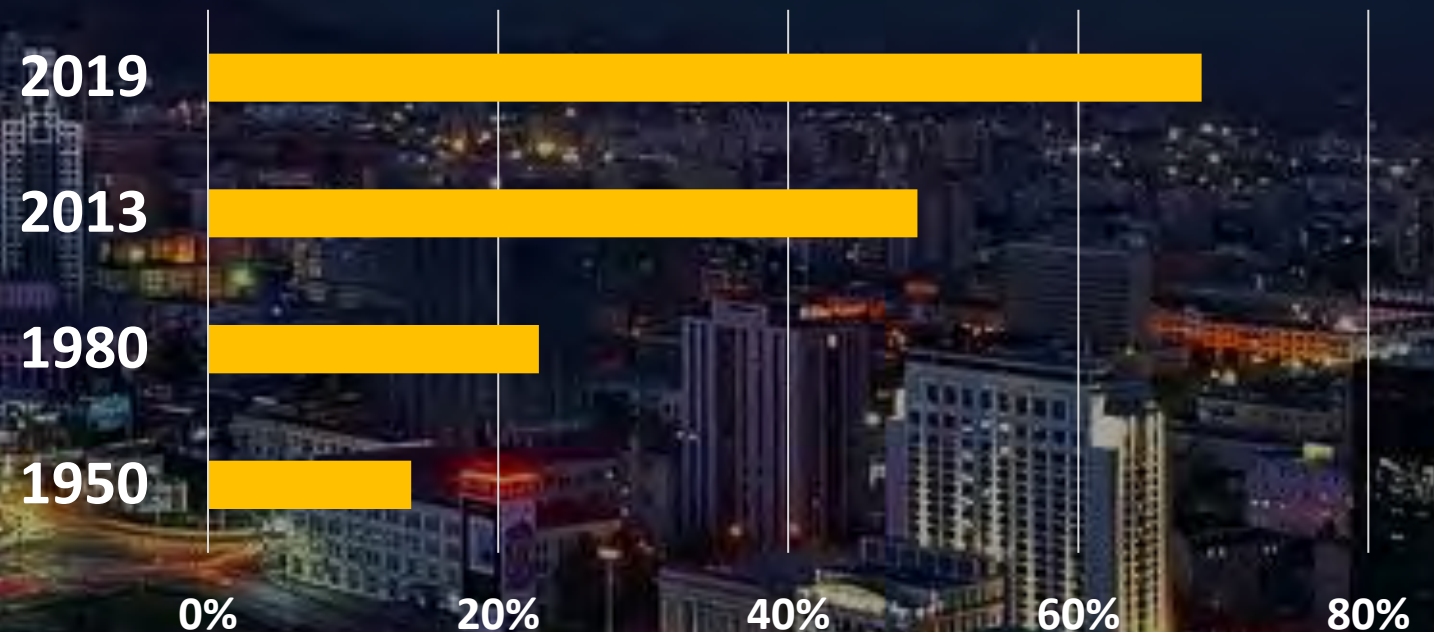

Mongolia:

- Pop: 3.29 mil. (2019)
- 68.5% of population live in urban area

Ulaanbaatar (Capital city):

- Pop: 1.47 mil. (2019)
- Density: 276 км²

Residents of urban area by percent

Mongolian urban centers:

- Capital city Ulaanbaatar
- 9 districts (satellite- 3, central-6)
- 21 provinces – 34 big cities & towns
- 333 soum or towns

Our Goal & Activity Direction

- “A healthy city is one that is **continually creating** and **improving those physical and social environments** and **expanding those community resources** which enable people to mutually support each other in performing **all the functions of life** and **developing to their maximum potential.**”
(Health Promotion Glossary, 1998)

The mission is to intensify the capacity of health promoting cities, expanding framework of health topics of a city and increasing the number of Healthy cities of Mongolia which are supporting health friendly environment.

Currently, we work with **18 local governments** of Mongolia.
(<https://healthycity.weebly.com/english-site.html>)

Activity direction:

1. Continuously capacity building activities among Healthy City key persons & coordinators at international and domestic level
2. Advocacy role for community/community based urban planning
3. Make a good model of a Healthy City Mongolia (ie., Tobacco free city, No dental problems city model city, Eco—Children playground projects)
4. Joint research work and evaluation of health city priorities of Mongolian local governments (2017 & 2019)
5. Promotion of the health friendly setting

OUR MEMBERS:

1. Altai city, Gobi-Altai province
2. Arvaikheer city, Uvurkhangai province
3. Bayankhongor city, Bayankhongor province
4. Baganuur district of Ulaanbaatar city
5. Bayan-undur soum, Orkhon province
6. Baruun-Urt city, Sukhbaatar province
7. Bulgan city, Bulgan province
8. Chingeltei district of Ulaanbaatar city
9. Chinggis city, Khentii province
10. Choibalsan city, Dornod province
11. Choir city, Gobisumber province
12. Darkhan city, Darkhan-Uul province
13. Dalanzadgad city, Umnugobi province
14. Khutul city, Selenge province
15. Mandalgobi city, Dundgobi province
16. Sainshand city, Dornogobi province
17. Ulgii city, Bayan-Ulgii province
18. Zuunmod city, Tuv province

Smart city models

ULAANBAATAR CITY (1.4 mil.pop)

- ❖ Smart city local program firstly have been initiated in Ulaanbaatar from 2014.
- ❖ “Information Technology City” – part of operation program of the Ulaanbaatar city mayor (2016-2020).

DARKHAN CITY (101,8k.pop)

- ❖ Glass hospital solution/ Smart health service project

ERDENET CITY (90k.pop)

- ❖ Smart well/ Smart drinking water distribution unit
- ❖ Smart education project
- ❖ E-Governance

CHOIBALSAN CITY (50k.pop)

- ❖ Smart education project

HCNM became
a member of WeGO
in 2019

***WeGO Participated in the Mayors' Annual meeting of Mongolia in
Choibalsan city, 24-25 January, 2020***

Future cooperation with NEASCN

EXPERIENCE EXCHANGE

- ❖ Good experience exchange activity with Mongolian local governments/cities
- ❖ Share good information technology practices to Mongolian cities

START-UP PROGRAM

- ❖ Support for good initiatives of start-up companies of Information technology and innovation

THANK YOU FOR YOUR ATTENTION!

Overseas Projects for Smart City Development

Korea Land and Housing Corporation (LH)

- » **100% state-owned enterprise**
under the Ministry of Land, Infrastructure and Transport (MOLIT)
- » Established by “**LH Act**”
to improve people’s lives and support economic development
through **land development** and supply of **affordable housing**

Business and Achievements

Sejong Multifunctional Administrative City

Overview of Overseas Projects

“We should plan and implement global projects as one of the core projects of LH, fully mobilizing available resources, so as to prepare a new growth engine of Korea.” - 2020 New Year’s address of CEO

Vision for Overseas Projects

Policy Supporter

- » Connect with country development cooperation plan
- » Utilize ODA and loans
- » Support urban development system of cooperating countries

Project Planner

- » Establish platform for public-private partnership
- » Support private companies to enter overseas market
- » Develop project model for public-private cooperation

Master Developer

- » Manage overseas investment development projects
- » Strengthen capacities and global networking
- » Enhance cooperation with international organizations, etc.

Overseas Smart City Projects

	Project title	Area	Developer
Projects in progress	Kuwait Abdullah New Town	64.4 km ²	LH – PAHW
	India Kalyan Dombivli Smart City	2.65 km ² (1 st phase)	LH - KDMC
	Bolivia New Santa Cruz City	54.5 km ²	GEL
	Korea-Myanmar Industrial Complex	2.2 km ²	LH Consortium + Myanmar gov. (JV)
	Vietnam Hung Yen Industrial City	7.9 km ²	LH Consortium + TDH ECHOLAND
	India Mumbai BKC	0.4 km ²	LH - MH state gov.
	Vietnam Hanoi Social Housing	0.53 km ²	LH – Ecopark Group
	Korea-Russia Industrial Complex in Primorsky Krai	0.5 km ²	LH - FEDC
Projects under review	Uzbekistan Smart City	-	-
	Bolivia Smart City	-	-
	Malaysia Kota Kinabalu Smart City	-	-

Presentation by Lim Teng Leng
Deputy Director

ASEAN Smart Cities Network (ASCN)

- The **ASEAN Smart Cities Network (ASCN)** is a regional ecosystem to synergise smart city development across ASEAN
- Collaborative platform which aims to:
 - I. **Develop city-specific action plans and a joint framework for smart city development in ASEAN**
 - II. **Catalyse bankable projects with the private sector**
 - III. **Secure support from ASEAN's external partners**

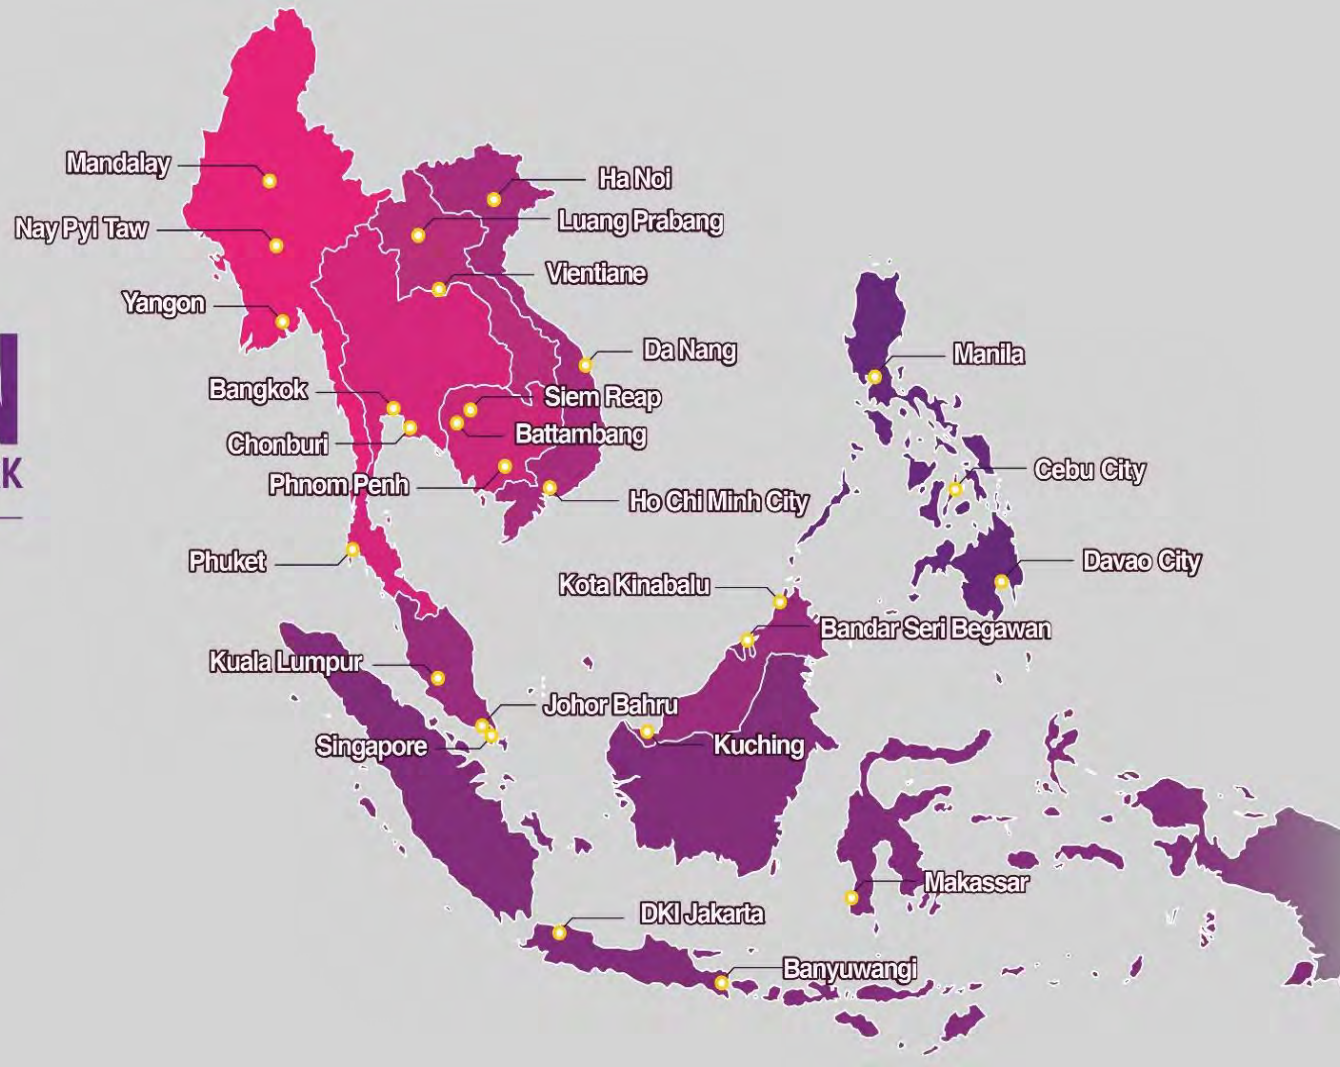

CORE OBJECTIVE
Improving people's lives, using technology and innovative non-
technology as an enabler

Lesson 1: National-City Level Conversation

ASEAN
SMART CITIES NETWORK

Pilot Cities

- **National Representative**

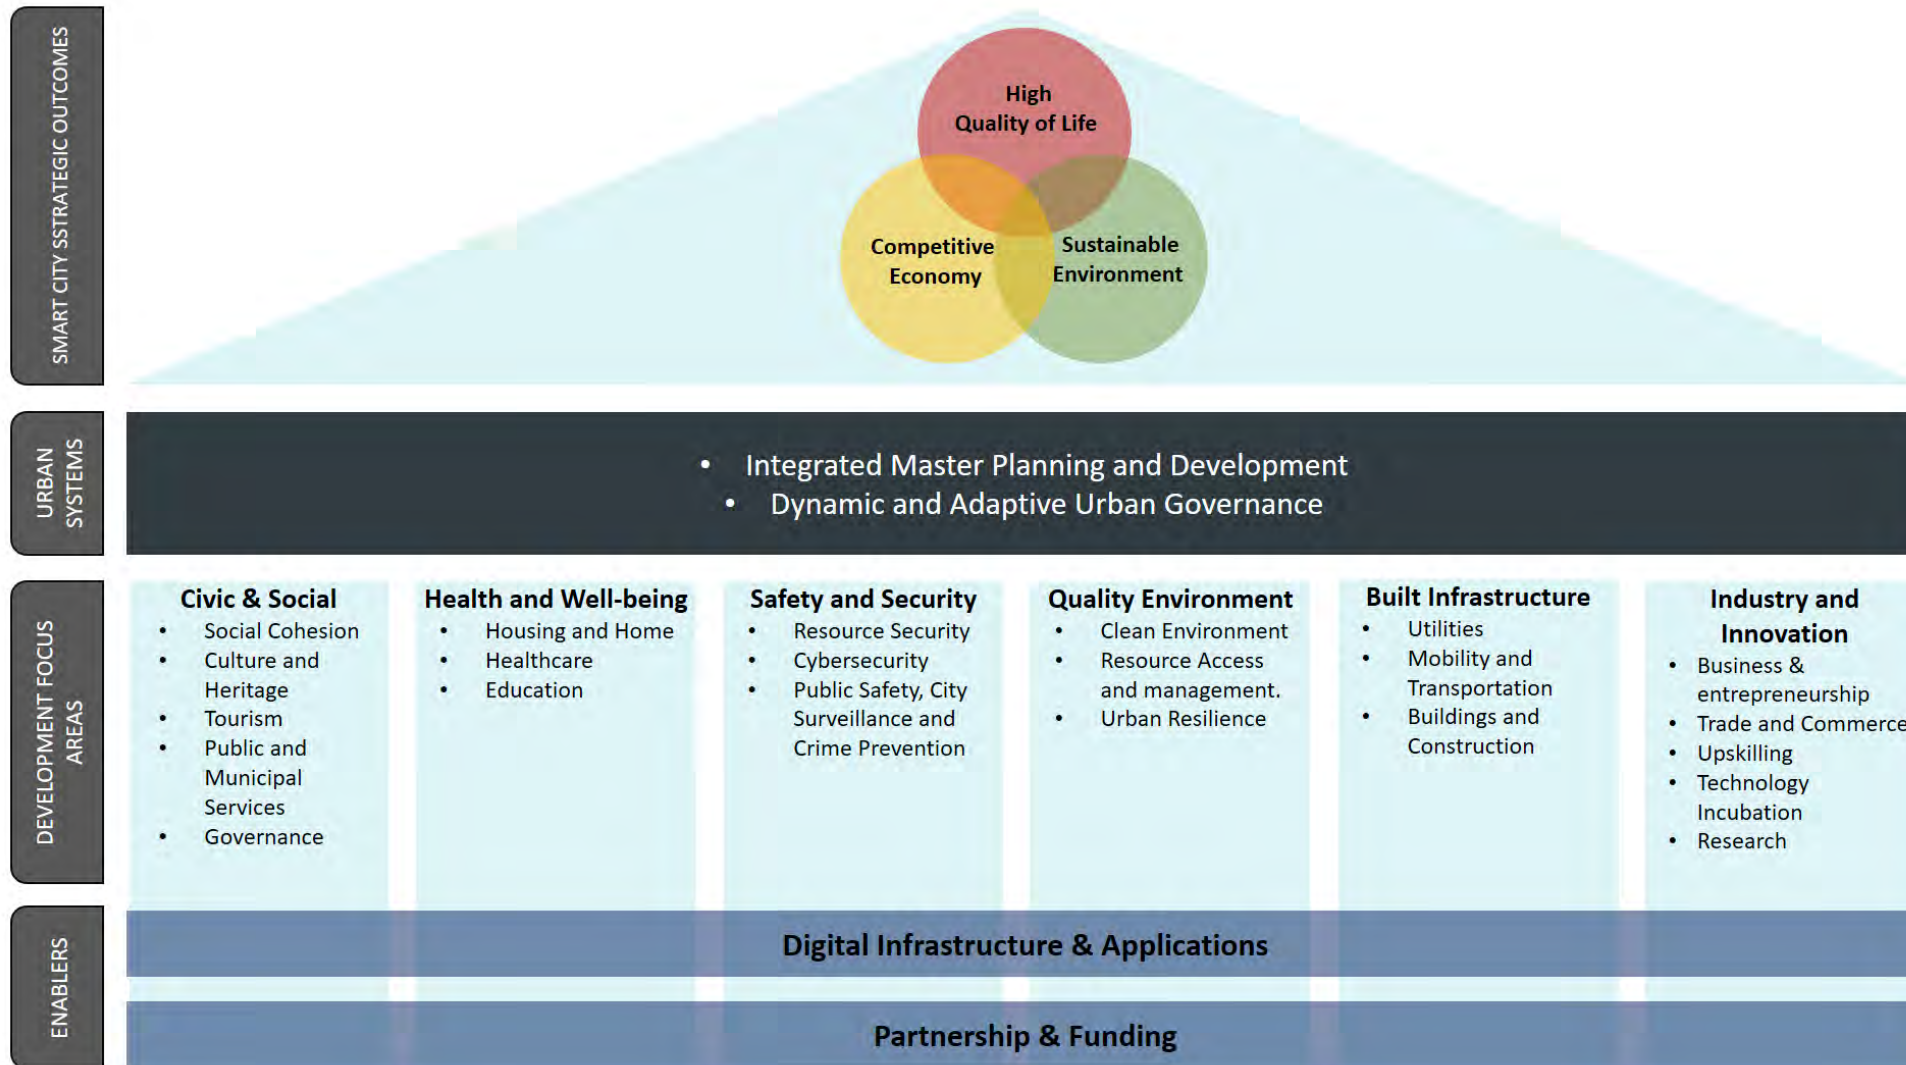

SOM-level official in the national government overseeing smart and sustainable development

- **Chief Smart City Officer**

Chief Urban Planner/
Chief Resilience Officer
(or equivalent)

Lesson 2: A Guiding Framework

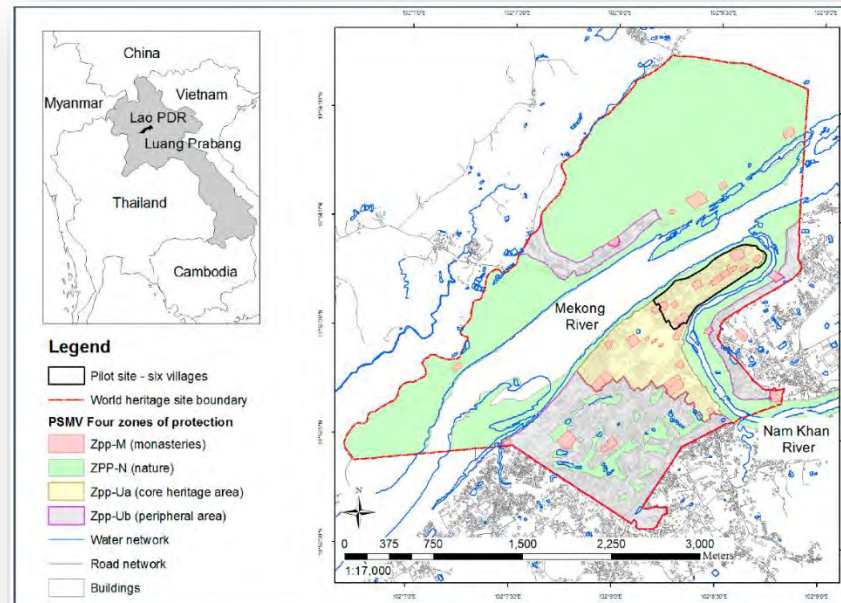

ASCN adopts a broad and inclusive definition of ‘smart’

1) Innovative Non-Technological means

600 home powered by self-made watermill and micro hydro power plants in a remote Indonesian village

2) Smart and Sustainable City

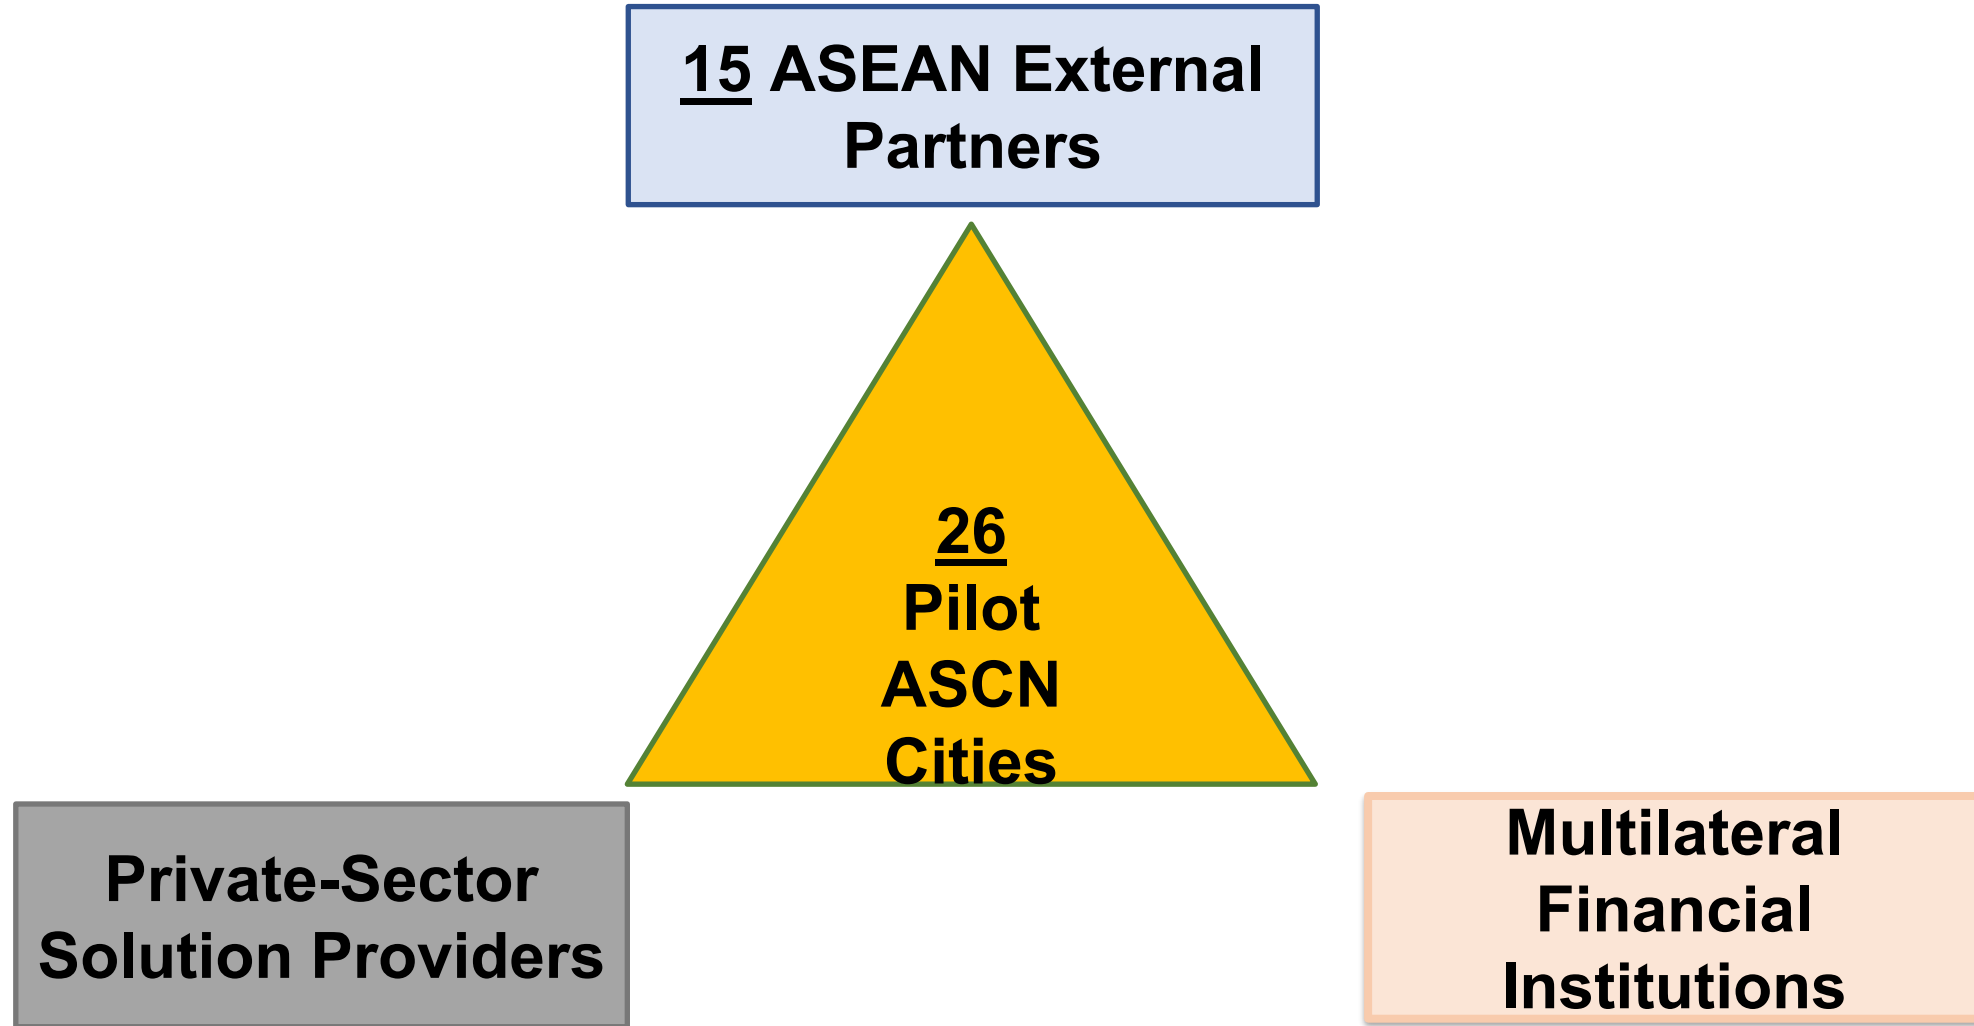

Luang Prabang, an UNESCO World Heritage Site, restoring wetlands with waste-water treatment and management

3) Nature as an important foundation for economic development

Making use of rich natural resources, Phuket wants to be a safe city for all including tourists

Lesson 3: Eco System

World Cities Summit 2021

Liveable and Sustainable Cities:
Adapting to a Disrupted World

20 to 24 June 2021

CENTRE for
LiveableCities
SINGAPORE

SESSION II. **Smart City Projects in Northeast Asia and Project Financing**

Thematic focus

- What types of projects appropriate for Northeast Asian cities could be foreseen to attract financing, publicly or privately?
- What are common big issues that these cities face in accessing project financing?
- What would be some practical measures that NEASCN could take to support Northeast Asian cities in securing project facilities for smart city development?

宜可城的**五大发展路径**，旨在创造**系统性变革**。这个框架可引导设计出有助于人类与城市和自然环境和谐共生的**综合性解决方案**，并在充分考量城市系统复杂性的基础上，迈向可持续发展。

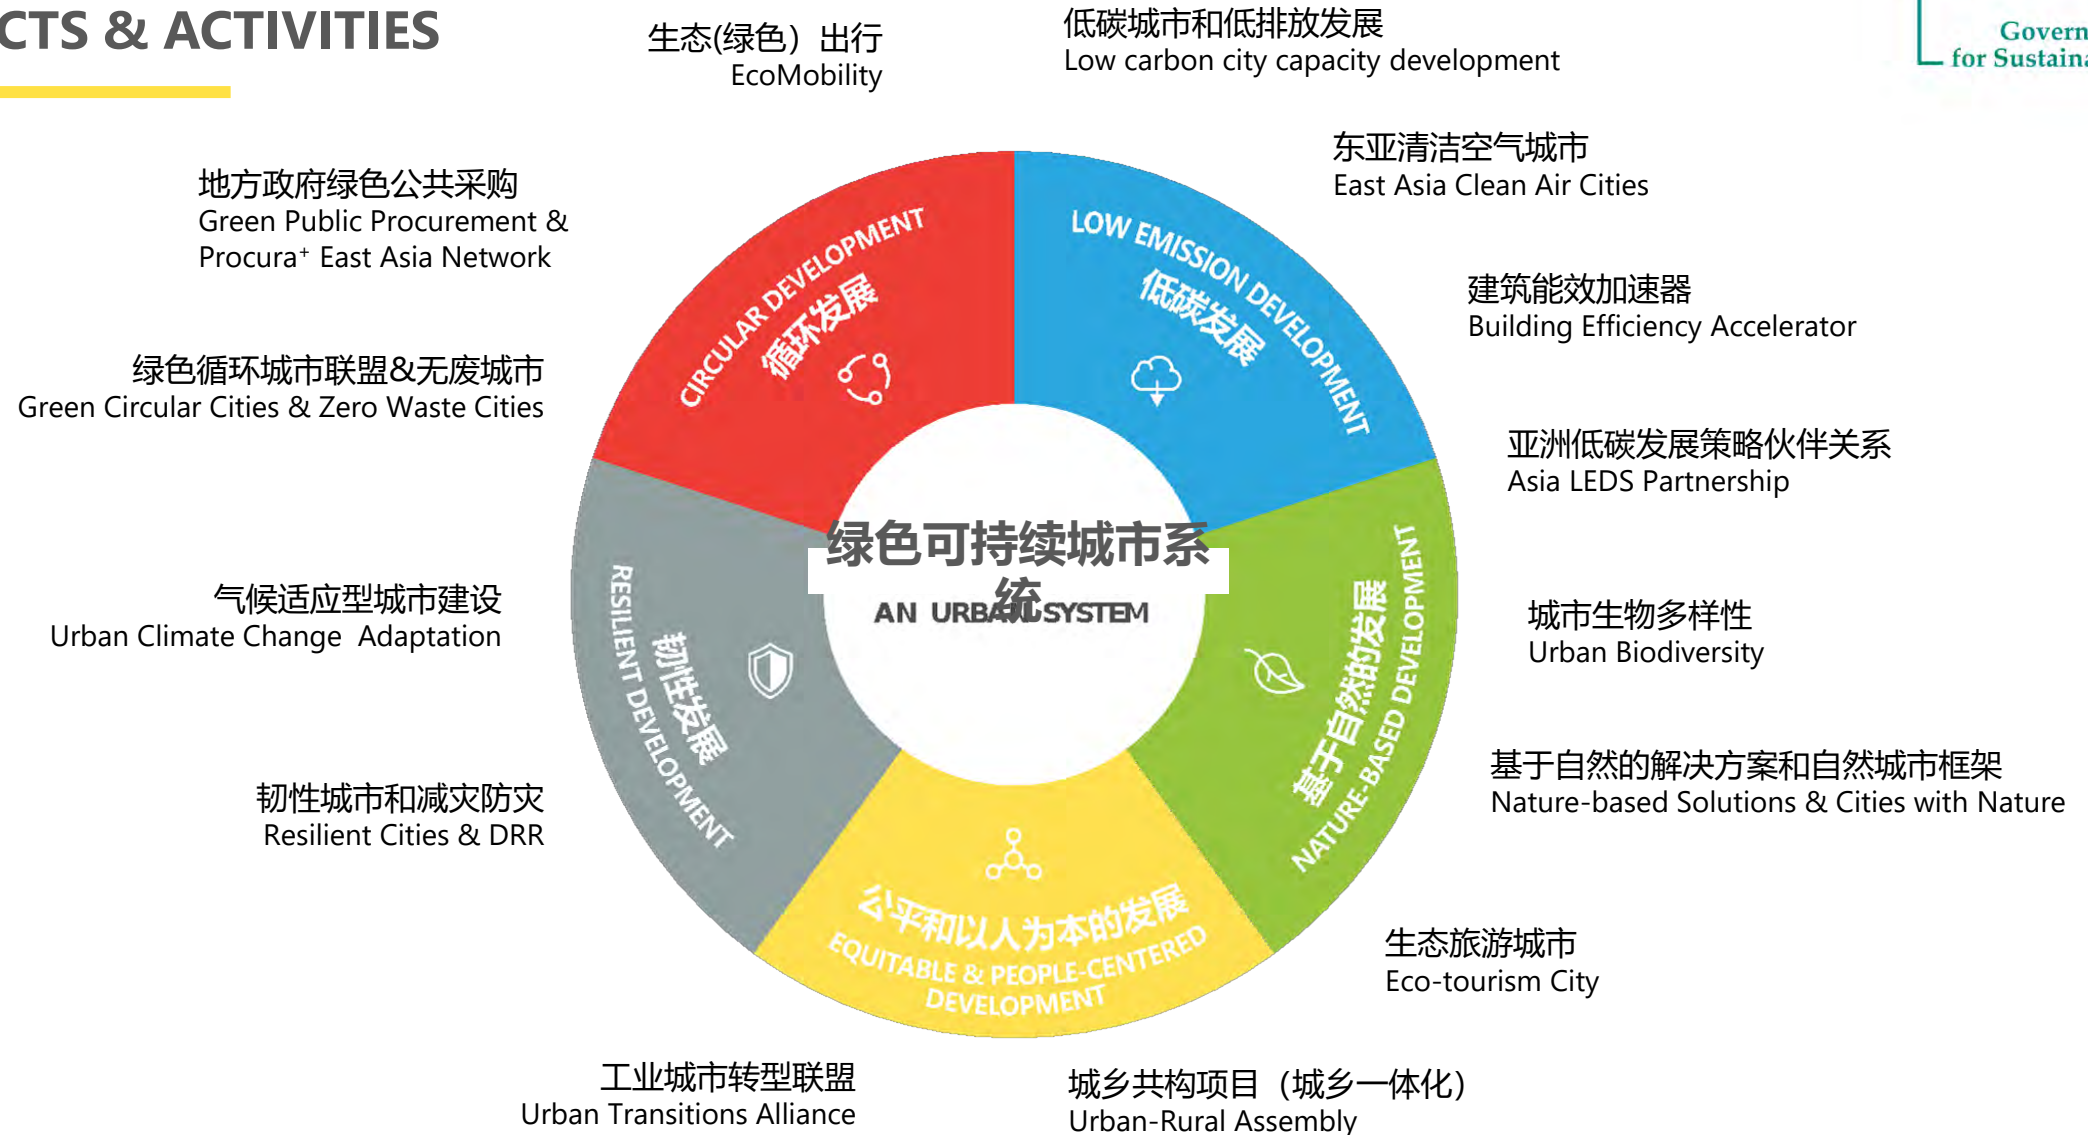

宜可城在五大发展路径的基础上，设计开展多元活动，且尽可能使我们的**项目**、**伙伴关系**和**倡议**同时触及不同的发展路径，助力地方政府将行动的影响力发挥到极致。

The **Five ICLEI Pathways** are designed to create **systemic change**. The pathways are a framework for designing **integrated solutions** that balance the patterns of human life and the built and natural environments.

We design our work to integrate as many pathways as possible into any given activity such as a **project, partnership or initiative**. When these pathways guide local and regional development, urban system becomes more sustainable.

PHASE II GOALS

NEASCN

- Act as a local government cooperation mechanism for advocacy, knowledge exchange and peer learning
- Enhance local capacity (tools, resources) on smart city and sustainable development
- Connect local governments with key stakeholders including private sector (solutions) and financier (financing)
- Promote best practice policies towards which cities may contribute and track progress
- Facilitate vertical and horizontal integration in policies

Intelligent Transport Development in Shanghai

Shanghai Municipal Transportation Commission

December 9, 2020

1 All-round support for road transport management

1. Further application of smart traffic signal management system
2. Continuous improvement in traffic information collection and intelligent road guide system
3. Integrated application of intelligent transport and big data technology
4. Significant progress made in construction of ETC lanes, enabling the full coverage of traffic lanes at tollgates

2 Strong pillar for industry operation management

1. All-round improvement in the information level of public bus services
2. Vigorously promoting the IT application in customs clearance
3. Upgrading the information level of integrated transport hub

3 Bolstering the rapid development in convenient transport services

Thriving development of “Internet + transport”

1. Establishment of comprehensive traffic Information service system
2. Striving to develop the logistics information service system
3. Steadfast progress in ICVs testing
4. Further integration of “transport payment + Internet”

4 Cooperation with NEASCN

Thanks

Model of Future City

NEASCN Pre-Workshop

December 9, 2020

Lee Dae Sik

Yeosijae
Future Consensus Institute

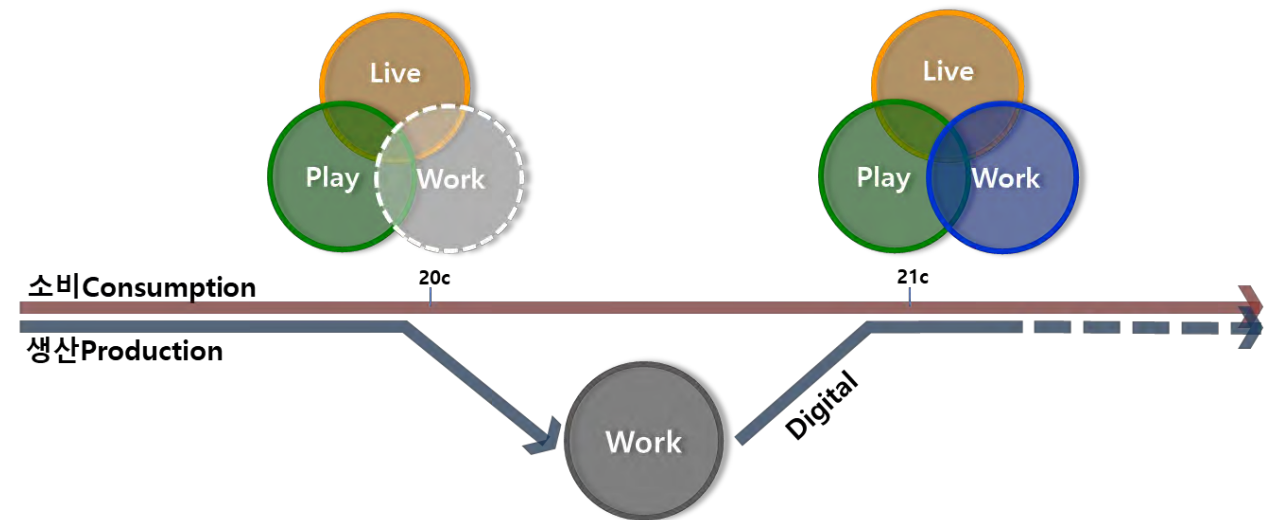

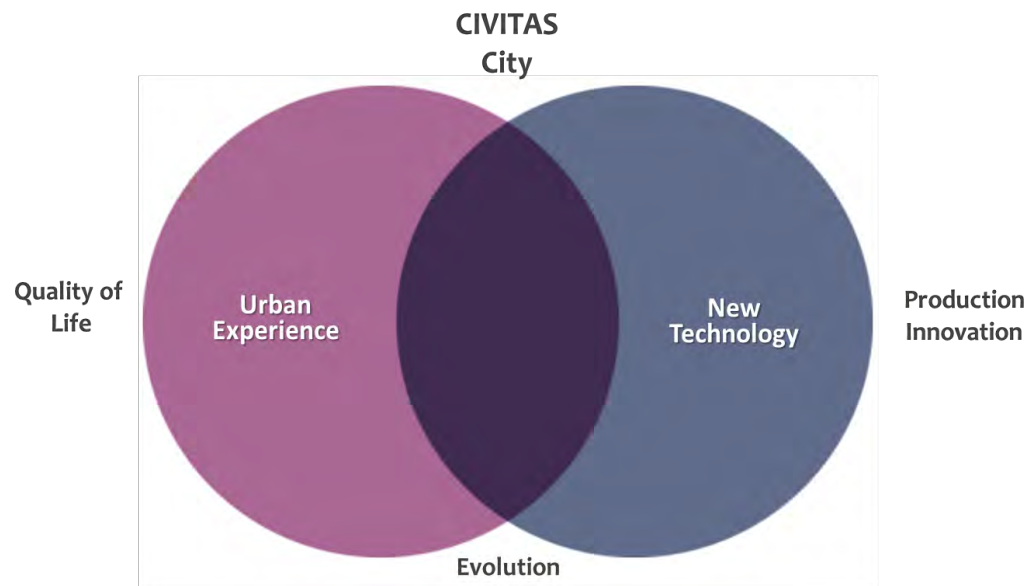

Urgency of Consensus on Sustainable City Model in Asia

- By 2025, 410million climate refugees in Asia
- In 2018, 7millions city dwellers died from air pollution
- Over next 30years 3 billions in Asia to Cities!
- In China 5 millions, in Asia 2.5billion follow

The core concept of Sustainable smart city

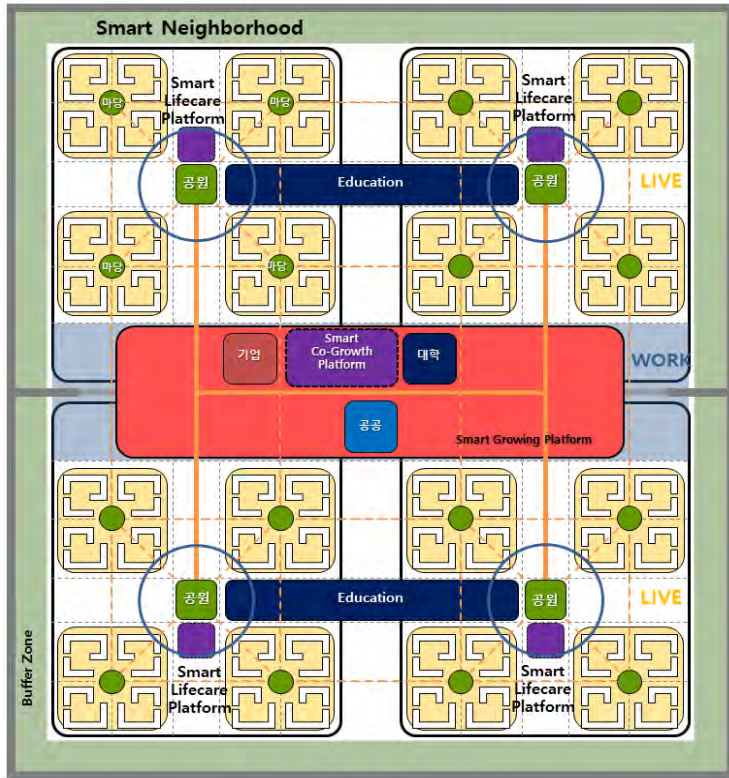

- Digital Transformation and Community,
- Conversion functions of Work/Live/Play

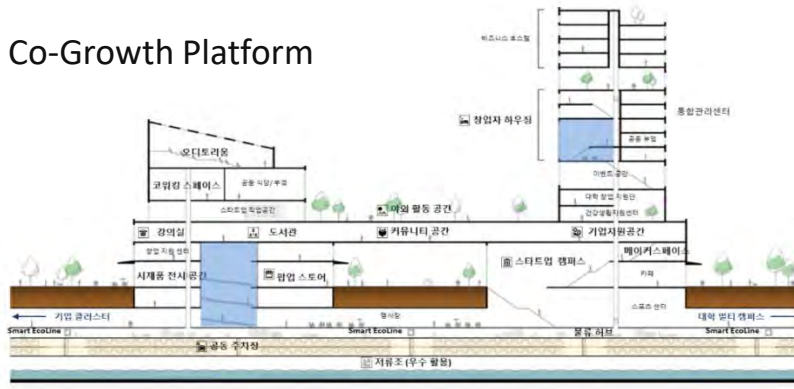

The Structure of Smart City Model of Yeosijae:

- 1) Lifecare Platform
- 3) Smart Ecoline

- 2) Co-Growth Platform
- 4) Smart Pole and Mobility

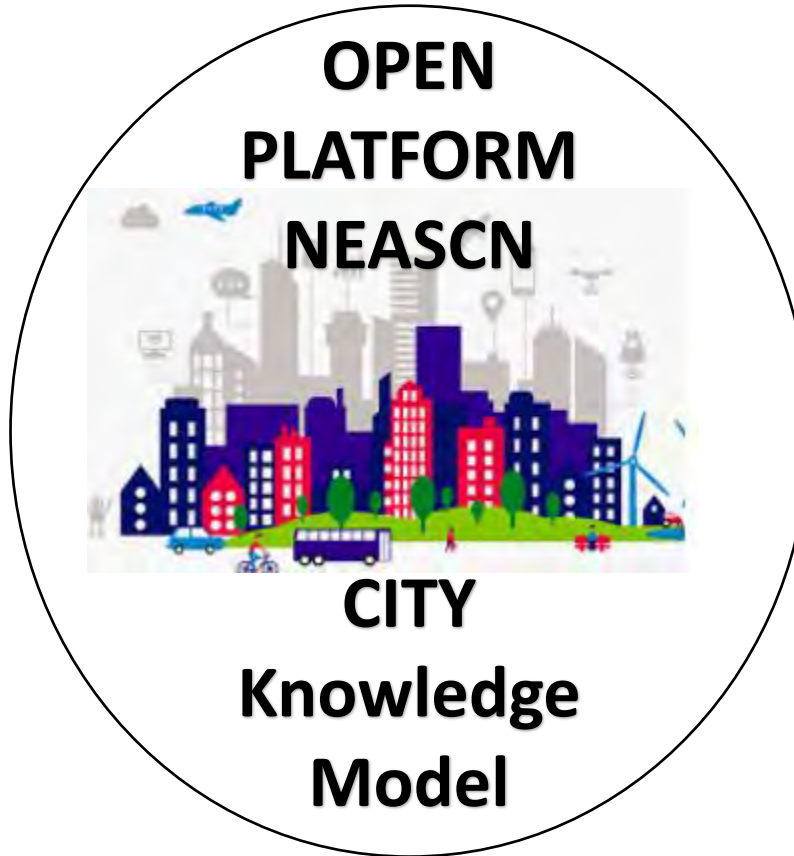

Smart Pole

North Korea's Urban Development Cooperation and Regional Cooperation in Northeast Asia

- NEASCN ONLINE PRE-WORKSHOP (2020.12.9) -

Sungchan Cho, Research Director
Hananuri Academy of Northeast Asian Studies

1. Introduction

□ **Subject**

- ▶ Cooperate with the cities of NK in terms of smart city approach.
- ▶ Developing into the Northeast Asia Regional cooperation.

□ **Recent backgrounds**

- ▶ Blockchain International Conference in Pyongyang, April, 2019.
- ▶ Lim Jong-seok, pushing for inter-Korean urban cooperation projects.
- ▶ Minister of Renuification , to set up liaison offices and trade organizations in the North cities.

□ **Contents**

- ▶ 1. A possible approach to the Urban Development Cooperation with NK, based SSE.
- ▶ 2. Basis that link cooperation with NK to Northeast Asia Regional cooperation.
- ▶ 3. Conclusion and suggestion.

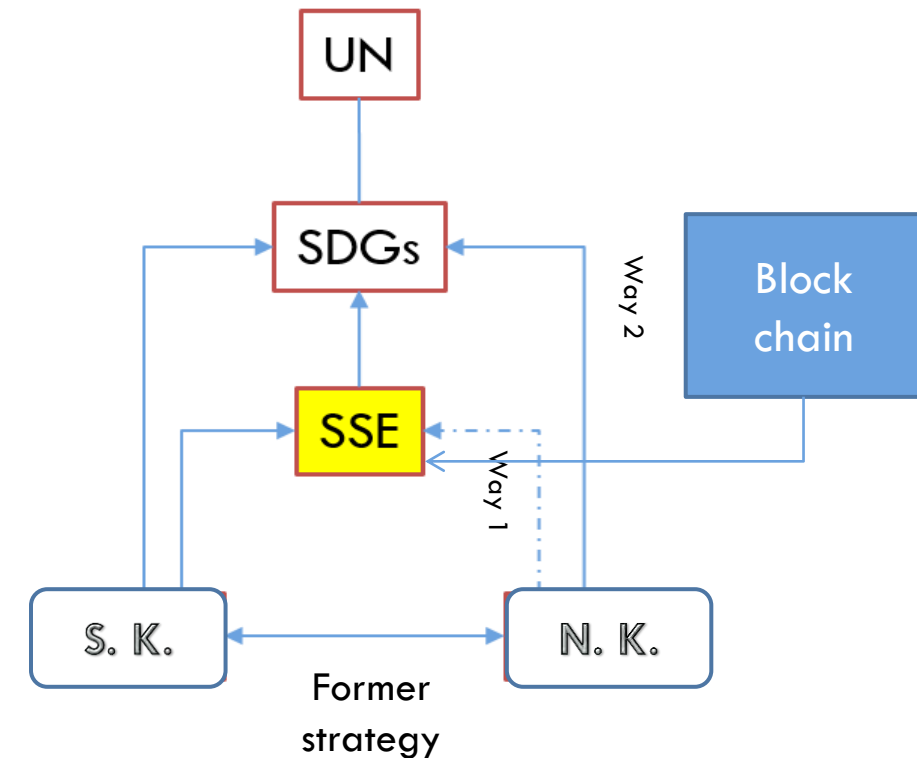

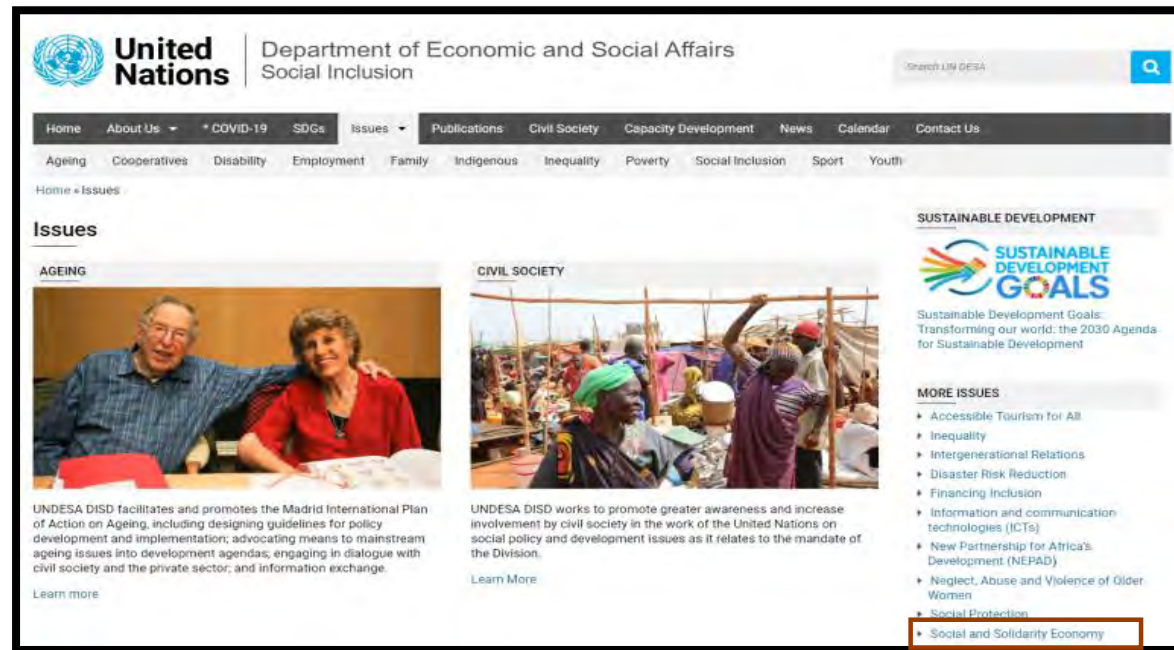

2. North Korea's Urban Development Cooperation

- NK's desire for leapfrog-development
 - ▶ CODECHEF (2013-2018), winning gold medal.
 - ▶ "Blockchain and Cryptocurrency International Conference", 2019.
 - ▶ Again in 2020. Canceled.

2. North Korea's Urban Development Cooperation

□ Social Solidarity Economy for N. Korea's Urban Development

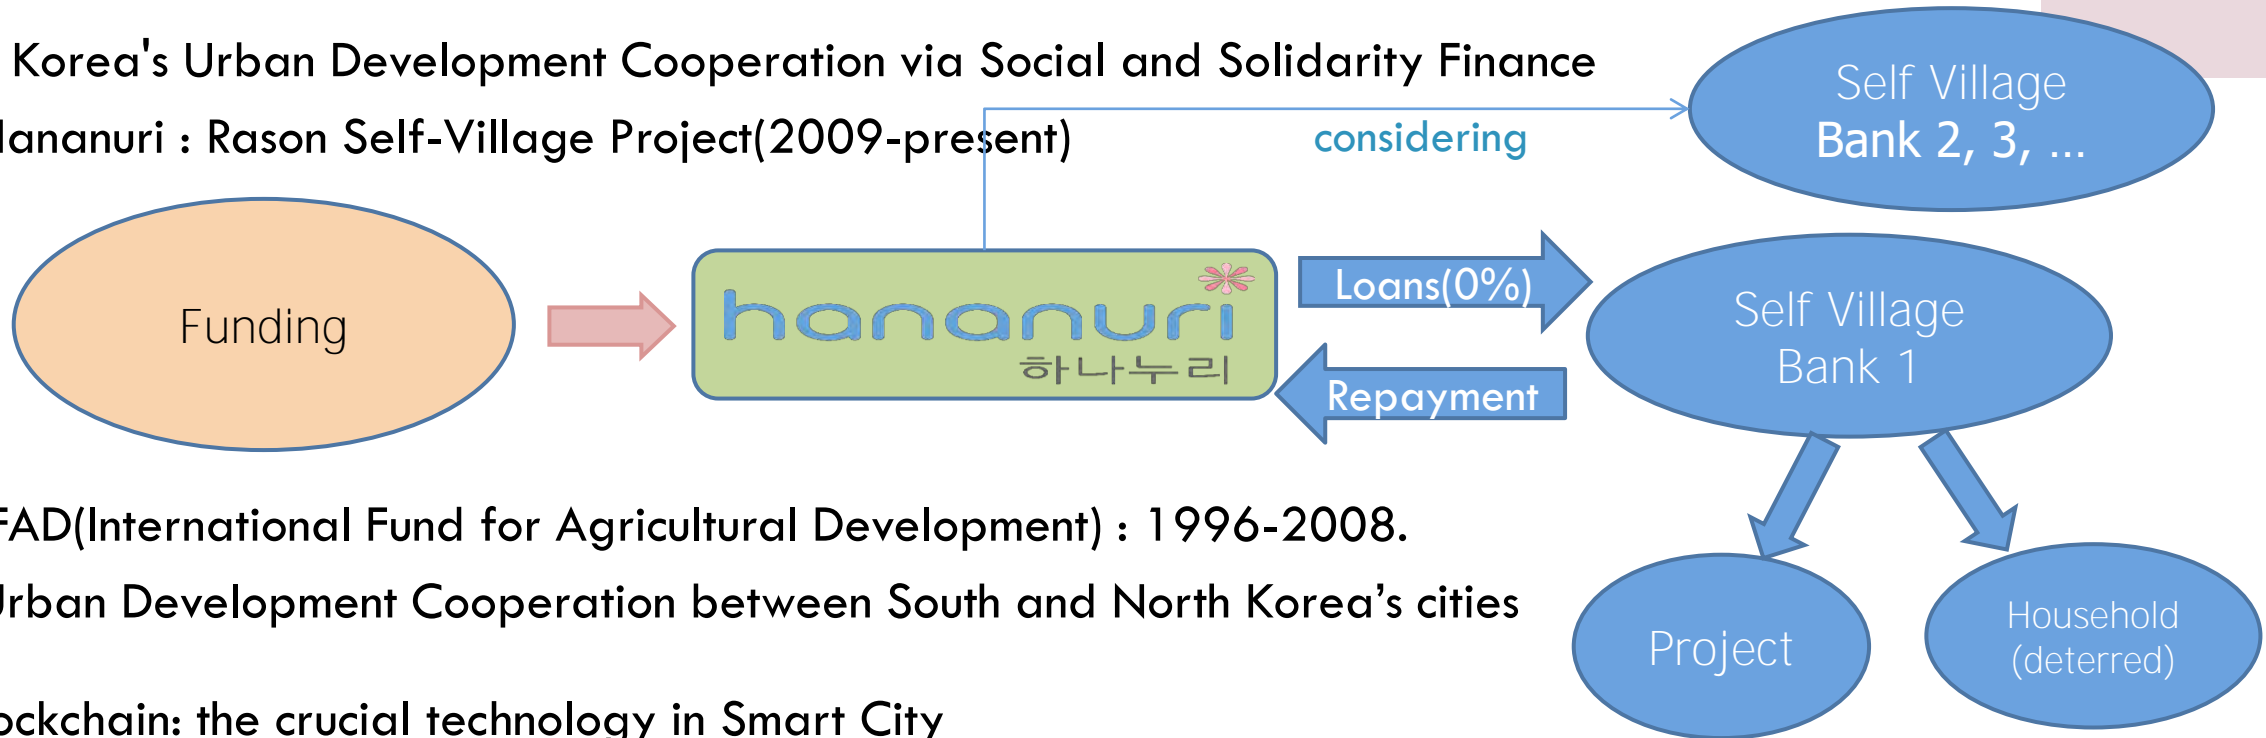

□ Social and Solidarity City : Commons (Land, Finance) + Organizations

2. North Korea's Urban Development Cooperation

□ N. Korea's Urban Development Cooperation via Social and Solidarity Finance

▶ Hananuri : Rason Self-Village Project(2009-present)

▶ IFAD(International Fund for Agricultural Development) : 1996-2008.

▶ Urban Development Cooperation between South and North Korea's cities

□ Blockchain: the crucial technology in Smart City

▶ UN, WB, KOICA etc. in the underdeveloped countries

▶ How can it be adopted in North Korea?

3. Developing into the Regional Cooperation in Northeast Asia

- NEASCN's desire
 - ▶ To support peace and economic development in the Northeast Asian countries.

- The possible Regional Cooperation in Northeast Asian Cities
 - ▶ Ahn Jung-geun, “the Theory of Oriental Peace” (1909)
 - ✓ The ownership of a territory, returned to China
 - ✓ **Oriental Peace Association, Central Bank**
 - ✓ Organizing common military force
 - ✓ The king of Japan, Qing and Korea, crowned by the Roman Catholic Pope.

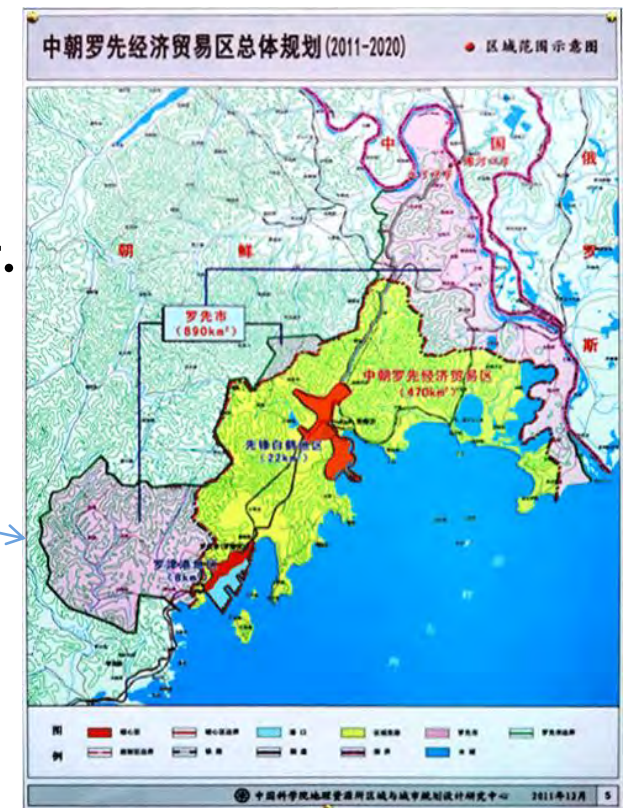

3. Developing into the Regional Cooperation in Northeast Asia

- The possible Regional Cooperation in Northeast Asian Cities
 - ▶ Ahn's theory is similar with EU's principles.
 - ▶ UN : TRADP(1991), GTI(2006) (deterred)
 - ▶ China : Ongoing Tumen River Delta International Tourism Cooperation Zone project

4. Conclusions

- ▶ NEASCN can connect Northeast Asian cities with the Smart City technology, including South and North Korea's cities.
- ▶ NEASCN should start a small scale of cooperation model based on block-chain.
- ▶ Cooperation model, should be linked with TRADP(GTI) and Tumen River Delta International Tourism Cooperation Zone project.
- ▶ The importance of understanding Rason city of N. Korea

The top of the slide features a decorative header with several horizontal bars of different colors: a light purple bar spanning most of the width, and three overlapping bars in shades of red, orange, and brown on the right side.

Thank you!

KANGWON DEVELOPMENT INITIATIVE

Calvin Chua
December 2020

조선교류 | CHOSON
EXCHANGE

CHOSON EXCHANGE OVER MORE THAN A DECADE

Building the first generation of startups in DPR Korea through economic policy, business and entrepreneurship training. Close to 3000 Koreans have attended our programs starting in 2009.

Programs include **workshops in Korea, overseas, and through online and virtual channels**. We conduct **research on economic development in Korea** that informs our programs and discussions. **120+ business volunteers** have joined us from around the world to teach in our programs inside the country.

MACRO AND MICRO LEVEL ACTIVITIES CYCLE THROUGH A FEEDBACK LOOP CREATING IMPACT

Macro Level

Economic Policy & Business Environment

Introduced policies relating to infrastructure, taxation, land ownership to Wonsan & Unjong SEZ management committee.

Introduced entrepreneurship concept and required environment to thrive.

Micro Level

Business Skills & Entrepreneurship

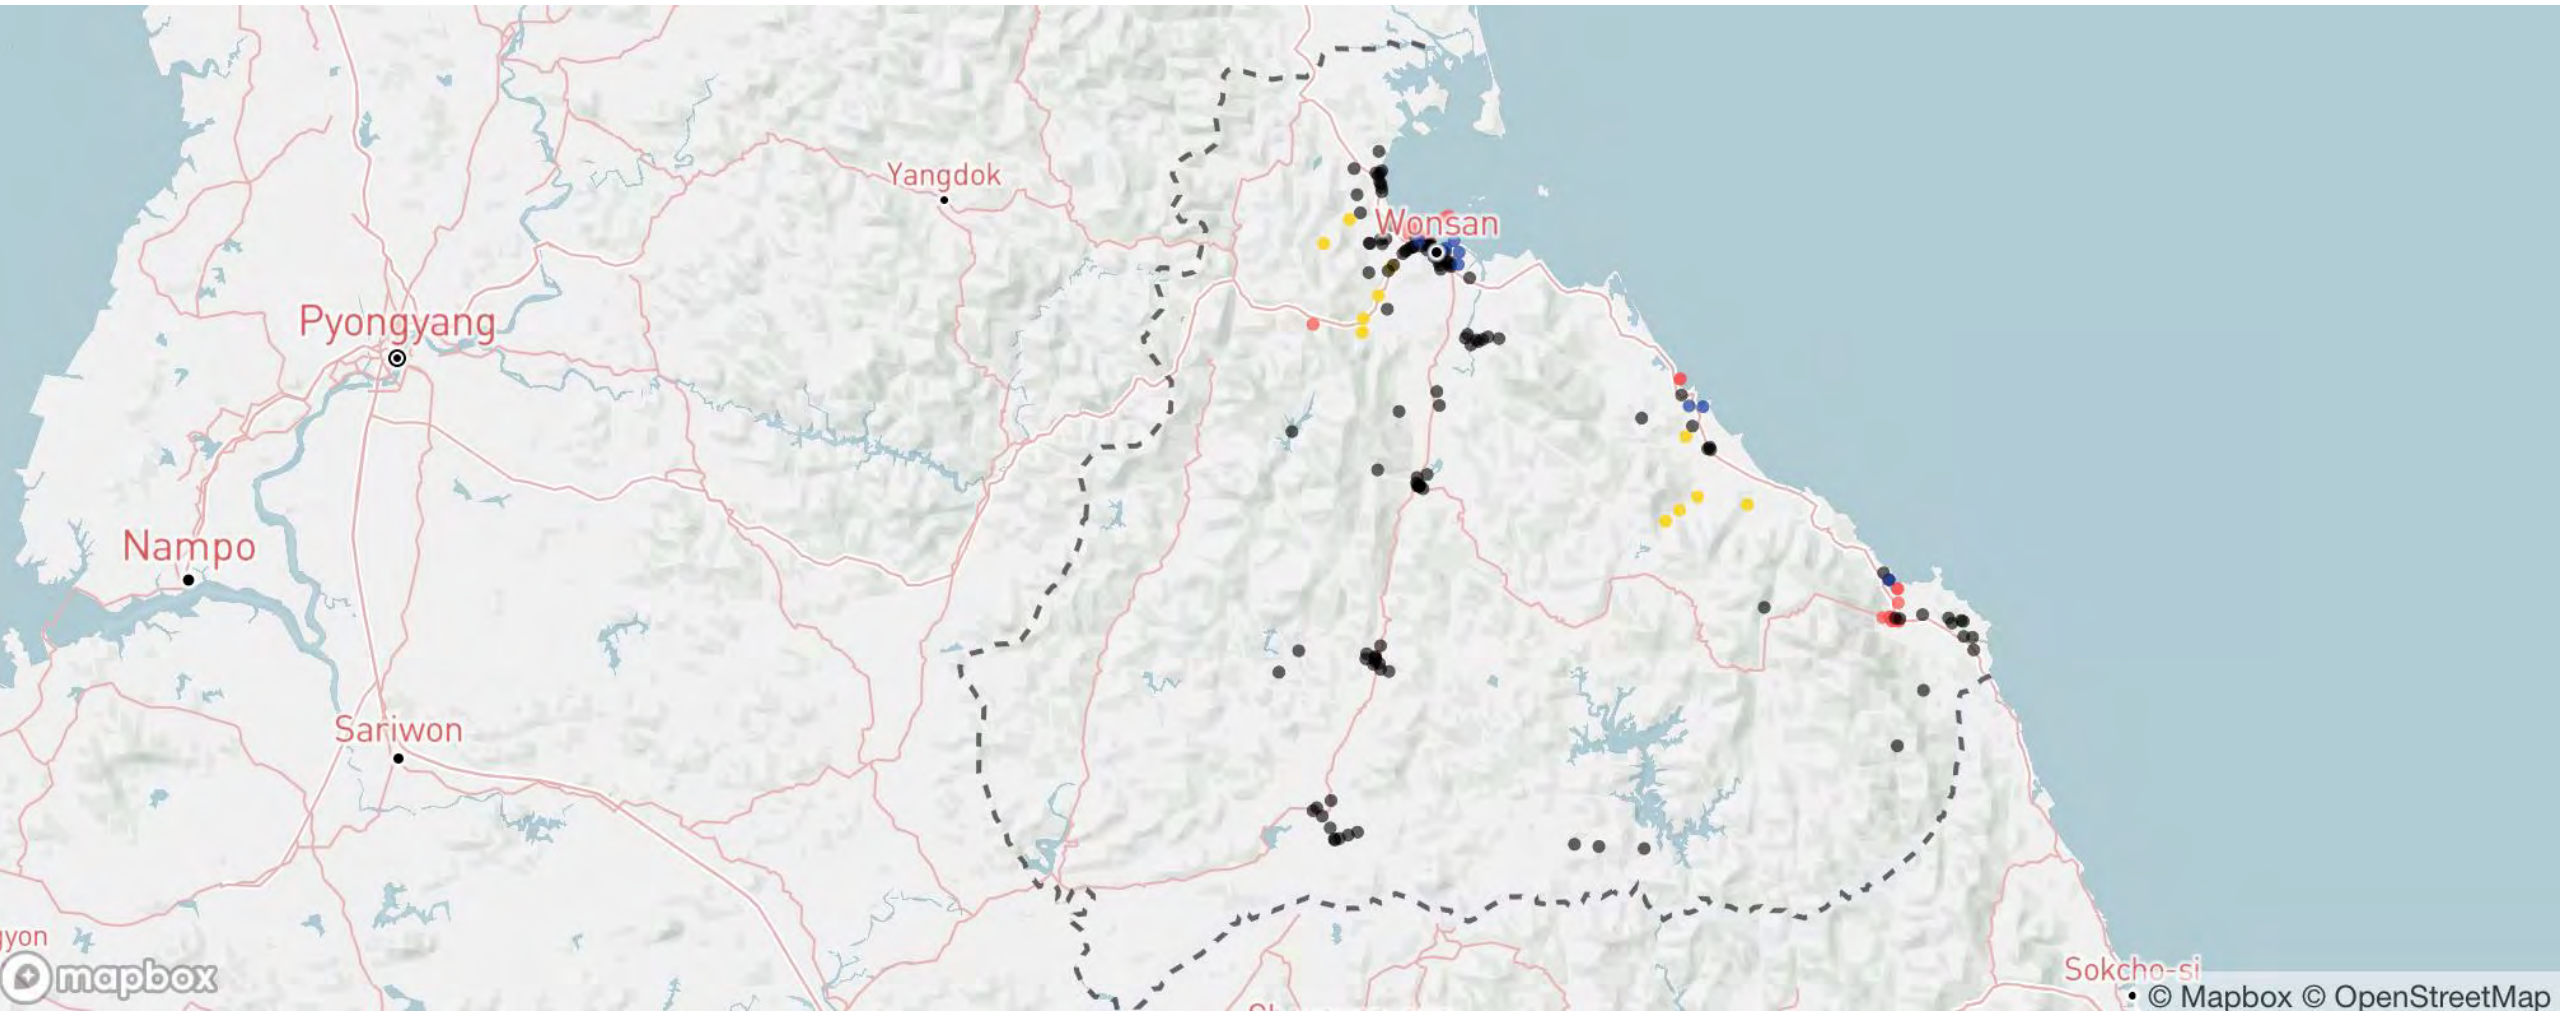

Training managers and startups various business related skills, from marketing to finance accounting.

Mentorship of local startups

Development of an incubation-type program.

WHY FOCUS ON KANGWON PROVINCE?

STRATEGIC LOCATION

2014 WONSAN WORKSHOP

[2014] Workshop in a Hotel Conference Room in Wonsan

2014 LAND & PROPERTY DEVELOPMENT WORKSHOP

[2014] Visiting Halong Bay and Learning about its Development with the leading developer of the region

1. TIMELINE
2. INDUSTRIES
3. COMPARISON
4. CHALLENGES
5. COAST VS INLAND

**A 5-year development
initiative.**

5개년 개발 계획

www.kangwonkorea.com

CHALLENGES OF KANGWON PROVINCE

THREE KEY CHALLENGES

Electricity Shortfall

- Hydropower is the key source of electricity in DPRK, with 55% of its energy generated from hydroelectric plants.
- Total national electricity consumption is 14 billion kWh, with the majority of the power going to Pyongyang.
- Major power plants are congregated on western DPRK
- Another major issue is the electrical grid, Inland Kangwon province lacks connection to the national power grid, which results in a disparate rate of development within the province

Transport Road & Rail

- **Multiple purpose of road & rail:**
 1. Transport of Tourists
 2. Transport of Goods
- **Currently, both modes of transport are not suitable**
 - Rail, while is well connected to all major and inner cities are currently not used for tourists
 - Road, while has good reach in some isolated areas, they are not well-connected enough for an efficient transport of goods

Talent for Industry Growth

Preparing and growing talent for the 1 million tourists who will visit Kangwon every year

WHERE DO WE GO FROM HERE?

BUILD NORMS FOR REGIONAL DEVELOPMENT COOPERATION THROUGH KANGWON PROVINCE IN DPRK

1. RESTART TRAINING AND EXCHANGES FOCUSING ON KANGWON OVER NEXT 5 YEARS

2. BUILD NORMS FOR REGIONAL ECONOMIC COOPERATION & INTEGRATION

3. SUPPORT POST-COVID RECOVERY STARTING FROM TODAY

4. KANGWON SHOULD BECOME A NEW TEST BED AND PROTOTYPE FOR COOPERATION WITH DPRK

2019 WONSAN KALMA GEUMGANGSAN VISIT

[2019] Wonsan Kalma Tourist Zone

2019 WONSAN KALMA GEUMGANGSAN VISIT

[2019] Geumgangsan Site Survey

TOWARDS A SMART AND RESILIENT PROVINCE IN NORTHEAST ASIA

Economic Roadmap for Kangwon Province

Three Key Developments

Developing Talent

- Developing Kangwon as the key tourism-focused region in DPRK
- Building tourism institutes, supporting talents in sector
- Promoting Kangwon region as natural and historical center
- Bundle trips to Pyongyang with Wonsan/inner Kangwon visits

Infrastructure and Facilities

- Improve frequency of flights, buses and rail
- Increase power generation
- Improve road conditions
- Telecommunications
- Build hotels and entertainment facilities

Production and Retail Development

- Manufacturing & agri-sectors complement tourism growth
- Increase opportunities for agri-tourism, cultural tourism
- Production focused on augmenting tourism opportunities

Three Key Developments (Smart City)

- Developing Talent**
 - Online training delivery

Infrastructure and Facilities

- Digital cartography of infrastructure and facilities
- Sustainability framework

Production and Retail Development

- Integrated dashboard for city level management

- 1. TIMELINE
- 2. INDUSTRIES
- 3. COMPARISON
- 4. CHALLENGES
- 5. COAST VS INLAND

A 5-year development
initiative.

5개년 개발 계획

Asian Development Bank

PART II.

Discussion with Financing Experts

Sungsoo JUNG

*Director/Team Head of Program Team in Planning
& Coordination Dept.*

Economic Development Cooperation Fund (EDCF)

Seok Yong YOON

Principal Public Management Specialist

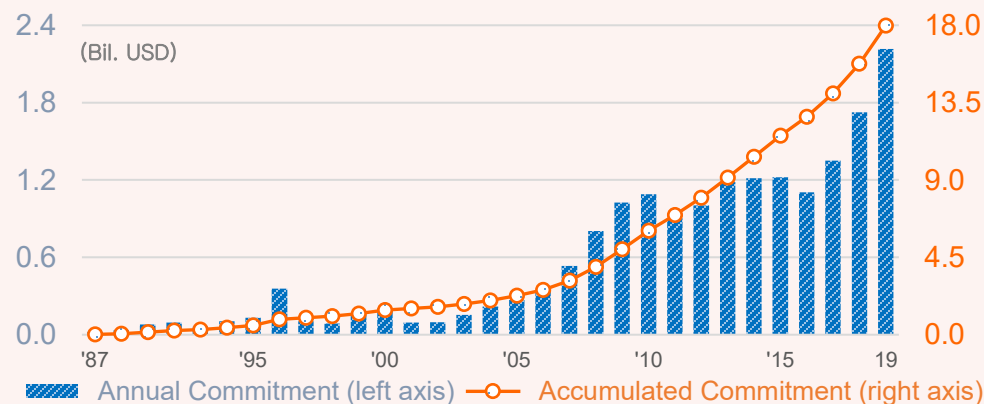

Asian Development Bank

- Established by **EDCF Act (1986) and Enforcement Decree (1987)**
- Entrusted by **Ministry of Economy and Finance, Korea Eximbank is responsible for the operations of EDCF, including project identification, appraisal, execution of loan agreement.**
- Support partner countries by **extending concessional loans for economic infrastructure projects in the partner countries.**

❖ Financial Performance of EDCF

- Since 1987, EDCF has committed total **USD 18.0B** to **57 partner countries with 446 projects**
- In 2019, EDCF committed USD 2.22B to 18 countries with 30 projects

❖ EDCF's Operational System and Procedure

1. Terms and Conditions for EDCF ODA Loans

- Loan Amount: Up to 100% of total project cost
- Interest Rate: 0%~2.5% per annum
- Repayment(Grace) Period: Up to 40(15) years

2. Types of EDCF ODA Loans

- Development Project Loan
- Public-Private Partnership Loan
- Equipment Loan
- Loan to MDBs
- Invest in SPCs or Funds
- Program Loan
- Sector Development Loan
- Project Preparation Facility
- Guarantee for Financial Institutions
- Co-financing with MDBs

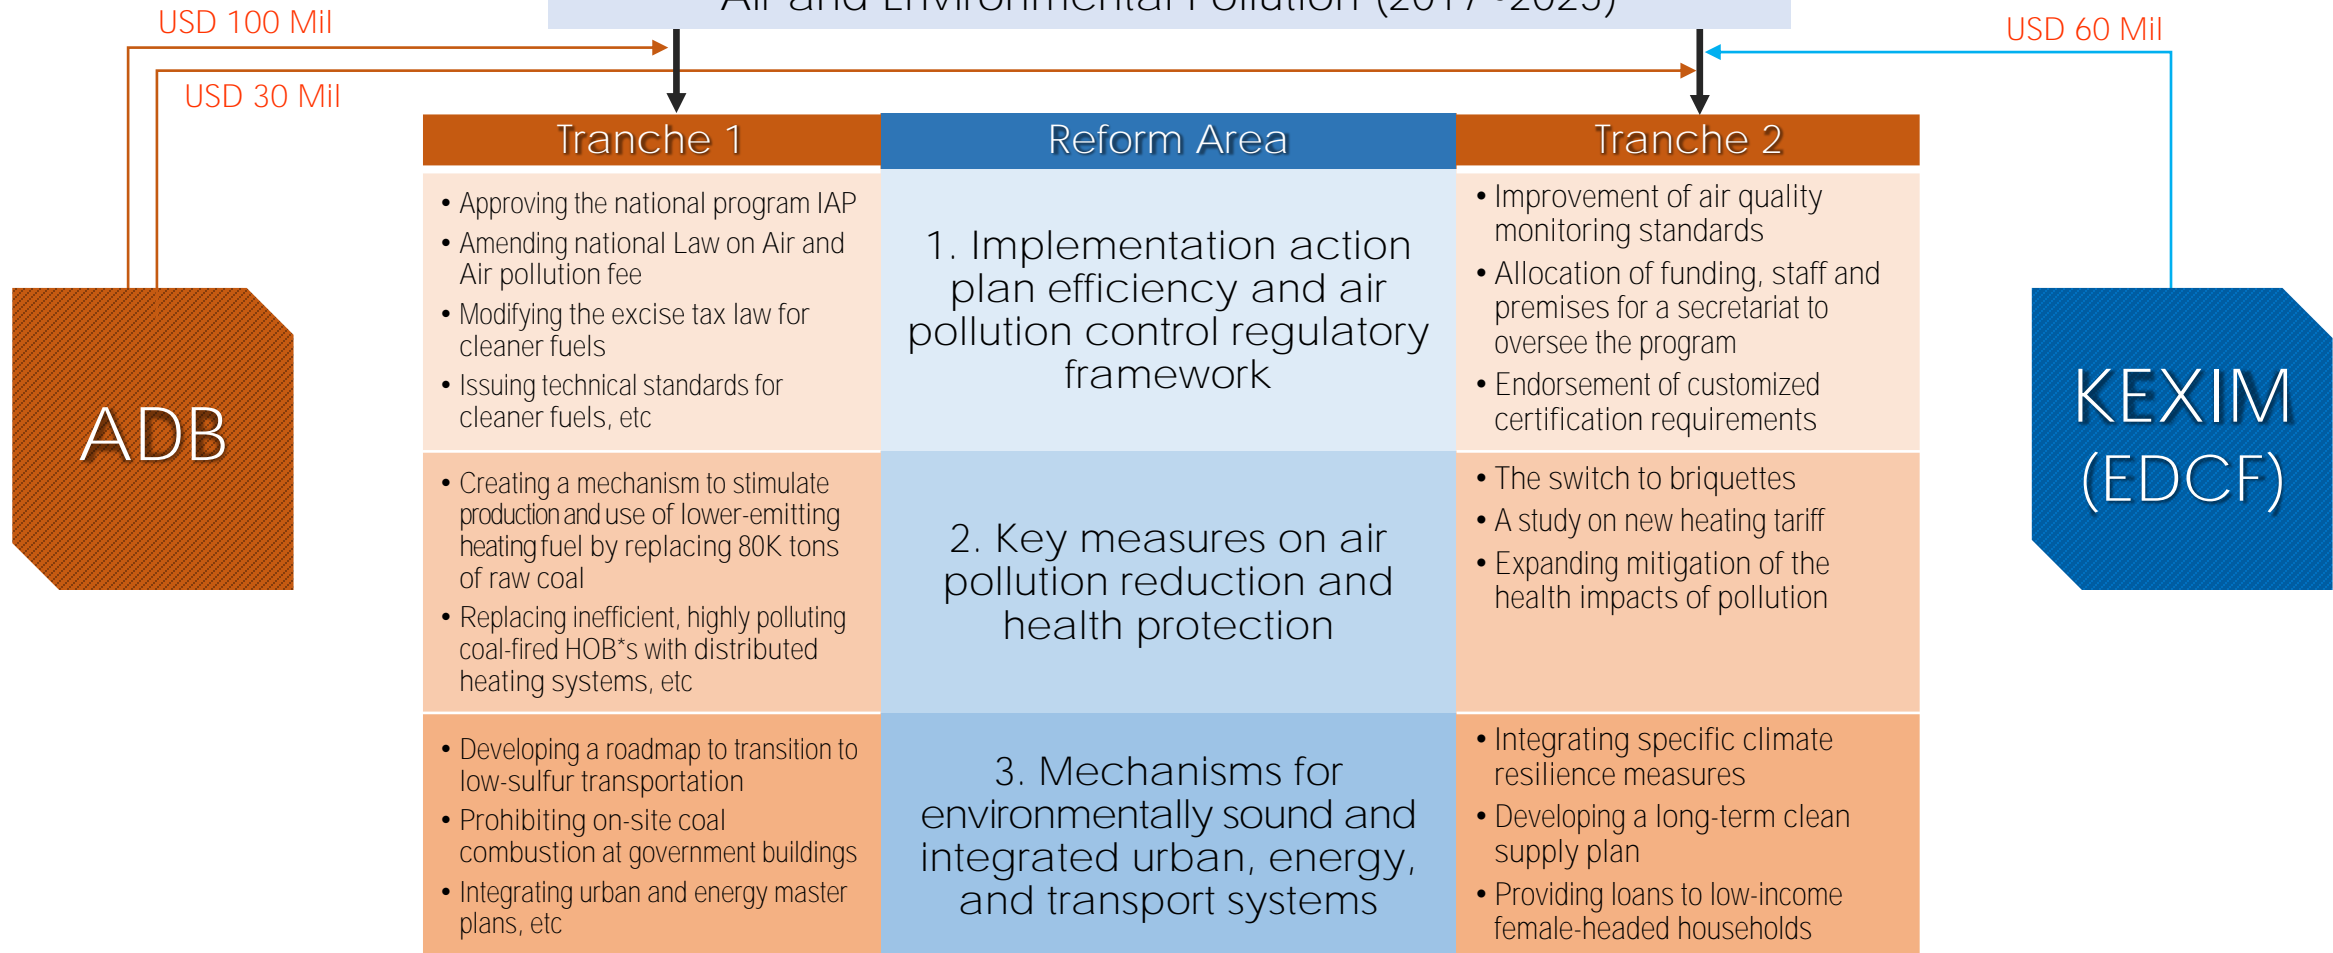

3. Procedures related to EDCF ODA Loans

❖ What else Korea Eximbank can provide?

- KSP(Knowledge Sharing Program) policy consulting (grants)
- DFI financing for PSD(private sector development) project
- Blended finance with EDCF loans for the development projects
- Overseas investment financing for the SPCs of PSD projects

Mongolia Government
National Program for Reducing Air and Environmental Pollution (2017~2025)

ADB's Corporate Strategy 2030

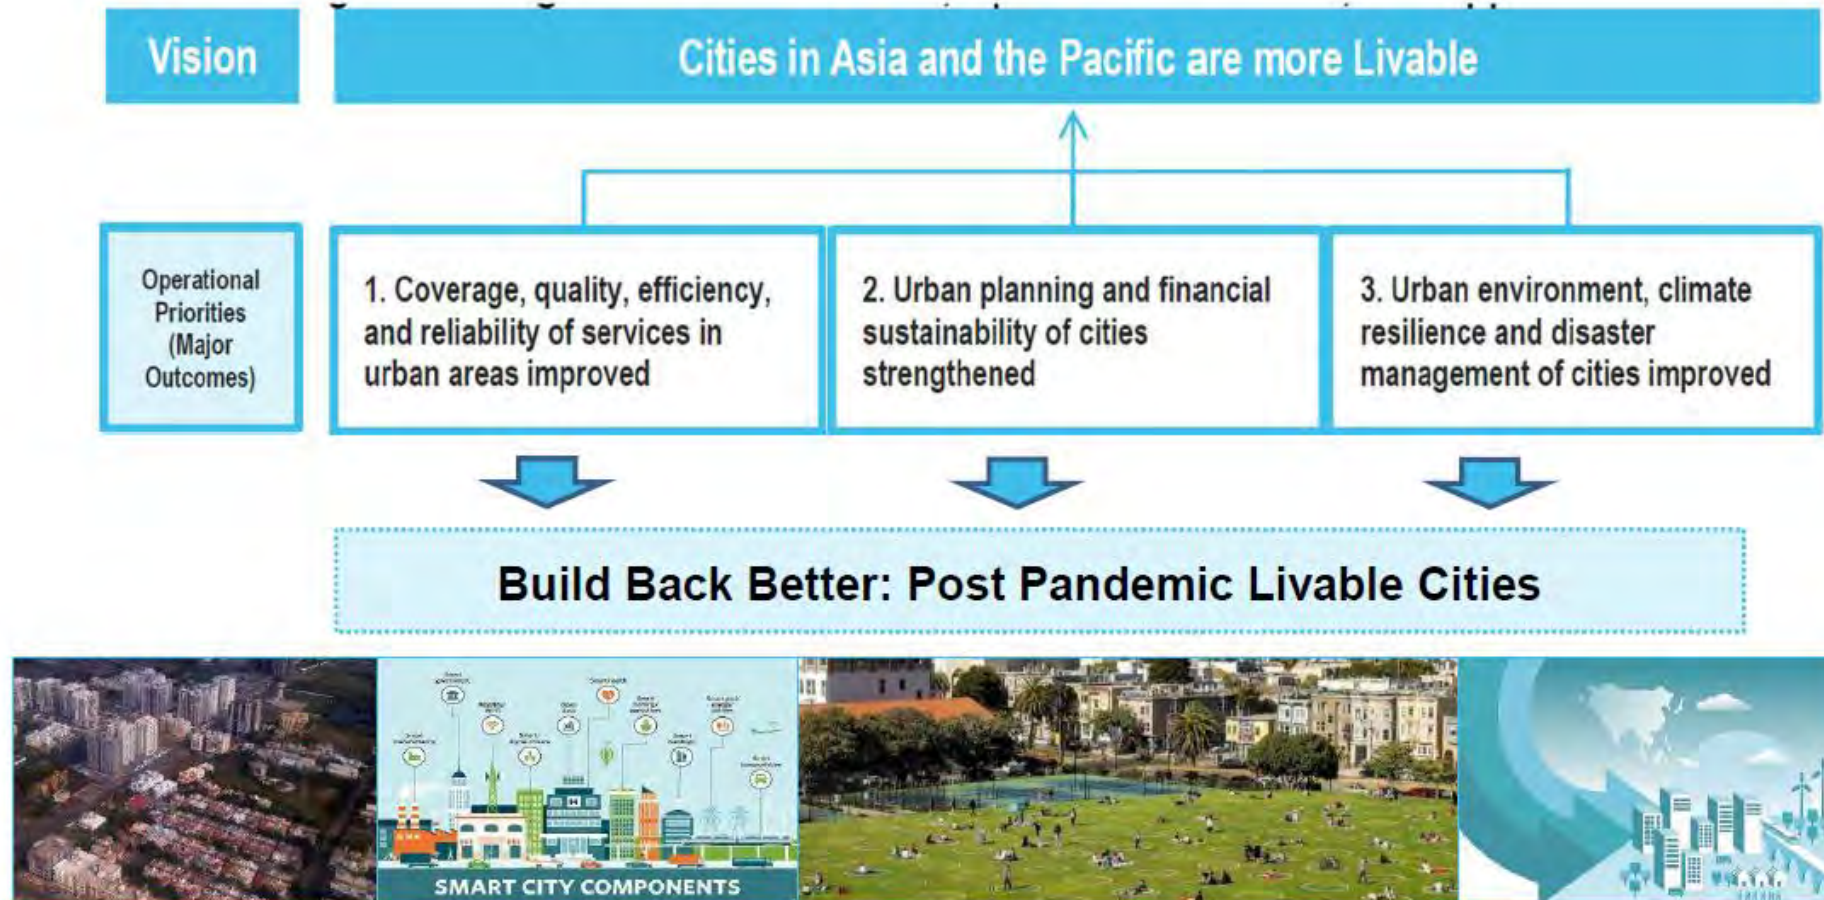

Strategy 2030:
Achieving a
Prosperous,
Inclusive,
Resilient, and
Sustainable Asia
and the Pacific

7 Operational Priorities

	Poverty Reduction and Reducing Inequalities
	Gender Equality
	Climate Change, Disaster Resilience, and Environment
	Making Cities More Livable
	Promoting Rural Development
	Governance and Institutional Capacity
	Fostering RCI

Operational Priority 4: Making Cities More Livable

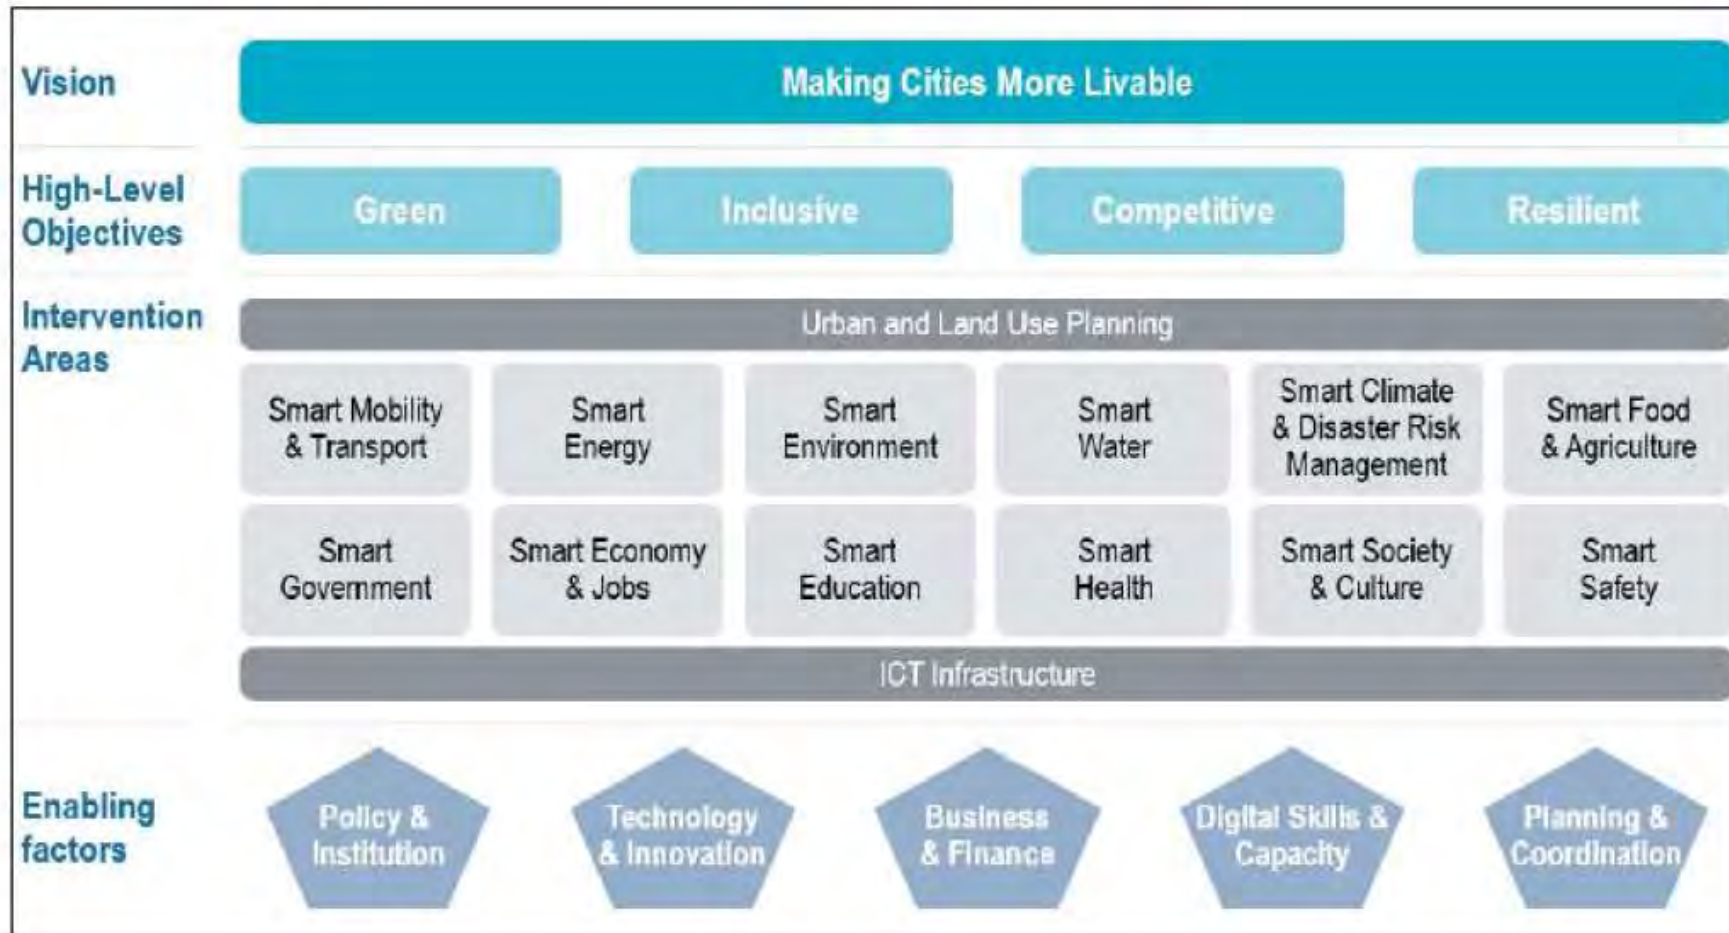

Smart Cities in ADB Operation

- Smart Cities - Places where digital technology solutions are applied to address urban challenges to the benefit of citizens, businesses, and government
- ADB publication on “Smart City Pathways for Developing Asia: An Analytic Framework and Guidance”

Smart City Analytic Framework

Source: ADB. (2021). "Smart City Pathways for Developing Asia: An Analytic Framework and Guidance"

Digital Connectivity

- Most developing countries are not ready to maximize the use of digital technologies.
- Broadband Internet is not affordable in many developing countries
- Lack of quality digital services is a big challenge

Mobile population coverage by type of networks, 2007-2019

Source: ITU

Smart City Data Infrastructure

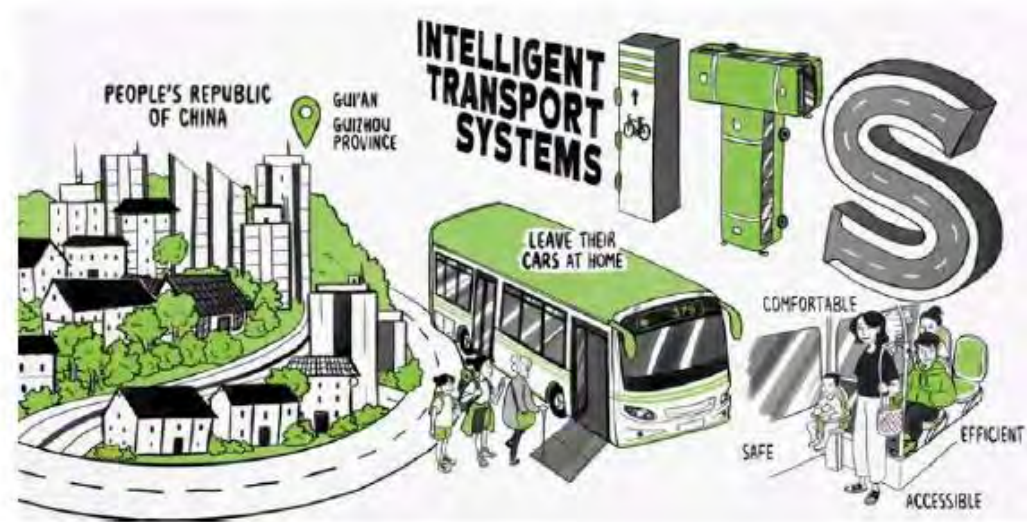

- Spatial Data Infrastructure is a foundation for smart cities
- Developing countries are also building or have a plan to develop their own SPIs at different levels

Urban Transportation

Intelligent Transport System, Guizhou (PRC)

In August 2019, ADB approved a \$200 million loan to support the development of an innovative intelligent transport system to reduce pollution, cut traffic congestion, and improve transport safety in Gui'an, a fast-growing new city of Guizhou Province in the People's Republic of China (PRC).

Source: ADB. 2019. ADB-Supported Sustainable Transport Project to Reduce Pollution, Improve Mobility in Guizhou, PRC. <https://www.adb.org/news/adb-supported-sustainable-transport-project-reduce-pollution-improve-mobility-guizhou-prc>

Regional Cooperation

ASEAN Australia Smart Cities Trust Fund

- On 1 April 2019, ADB approved the establishment of the ASEAN Australia Smart Cities Trust Fund (AASCTF or the Fund).
- On 2 April 2019, the Government of Australia committed to contribute about \$14 million towards the Fund.
- The Fund aims to improve core functional areas (planning systems, service delivery and financial management) of participating ASEAN cities through adaptation of appropriate digital solutions

SESSION II. **Smart City Projects in Northeast Asia and Project Financing**

Q&A

- What types of projects appropriate for Northeast Asian cities could be foreseen to attract financing, publicly or privately?
- What are common big issues that these cities face in accessing project financing?
- What would be some practical measures that NEASCN could take to support Northeast Asian cities in securing project facilities for smart city development?

Introduction of NEASCN Task Force

Todor MERDJANOV

Corporate Partners

World Smart Sustainable Cities Organization (WeGO)

Introduction of NEASCN Task Force

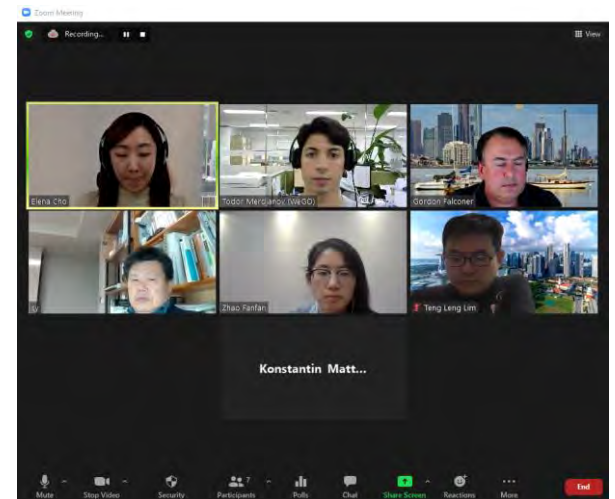

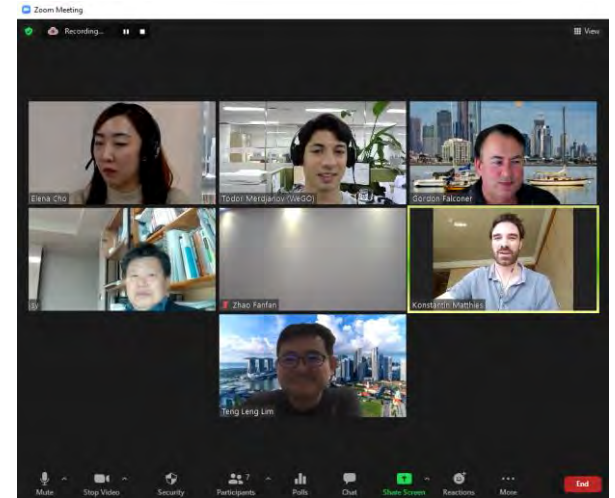

Purpose. Develop a Framework for NEASCN that will define the key functions and principles guiding membership in, and cooperation with, NEASCN.

Composition.

- Overseeing body: WeGO Secretariat
- 7 experts in smart city development and regional networks
- Advisors for external consultation and support

Term. Sep, 2020 – Inaugural Meeting of NEASCN (2021 TBD)

Progress. NEASCN Task Force Meetings (Sep & Nov, 2020); Framework Outline Blueprint
