# SCANETCHAIN

Don't Search Just Scan It.

What's Scanetchain?

Scanetchain will be one of first commercialized AR Blockchain platforms that will enhance our daily lives with commercialized Dapp and suite of services that will change the way business advertise to consumers, change the way we shop, change the way we view and interact with content, and change the way we interact with people and social networks.
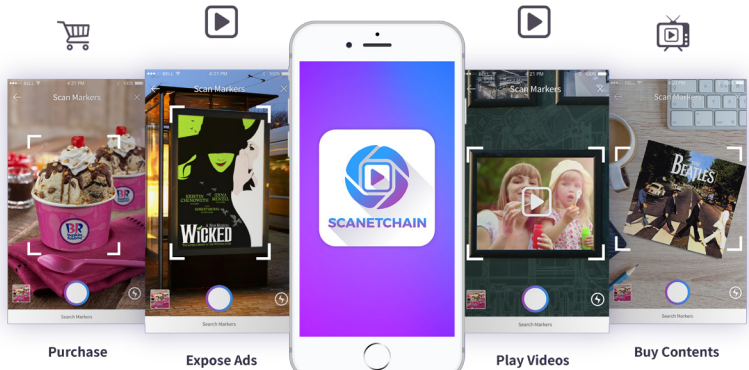

Hybrid Blockchain System

The Hybrid-blockchain composed of On-chain and Off-chain. As a blockchain designed for commercialization, It sustains both advantages of the blockchain and existing systems.

Changing the ways of the world

A Compelling AR Blockchain Platform that can be actually used by End users and benefit their everyday life. No additional tech devices needed. Only your smartphone. Don't Search Just Scan it.

On-chain

Blockchain
ScanLedger

Service
Identification, Apostille, mosaic system

Off-chain

AR Platform
Ad, Commerce, SNS

AR Markers
Logo, Images, Photo, Product

Purchase   Expose Ads   Play Videos   Buy Contents

Anything can be a Marker

Scanetchain Ecosystem

- Creating an environment that features need of End users in daily basis.
- Users get incentivization by their Activity Rate.
- Notarizing Contents for intellectual property.
- Giving chance to users to decide price of their own rights and trade them with No middle man.
- AR Access connecting to Blockchain Network through Dapp.
